Play Piano by Ear Method Using a Simple Number System Rosa Suen, 2017-03-15 Presently I am teaching a group of students in Hong Kong to play by ear Many of them have difficulty reading the standard music notation They want to play the piano but reading music slows them down In the process of teaching I started coming up with this method that works effectively for them That's how I started teaching them how to play by ear a year ago In the process I started coming up with a method that works effectively for them Most people in Hong Kong are aware of another kind of music notation that is used widely among the older generation The system is simple known by the Chinese as Jianpu which means simplified music notation We sometimes see this Asian Music Notation in the older books but we seldom pay much attention to it because we've been trained to study the Western standard music notation when learning music In the process of teaching my students to play by ear I discover that they pick up this Asian Numeric Music Notation easily and their play by ear skill thrives as a result One of my students started playing by ear publicly as a church pianist half a year into the course He is even able to compose his music at the piano and performs for us You should see the glowing joy on his face In the Play By Ear series I provide you with many tips and analysis to show you how to take full advantage of this system As I said earlier it only takes a few hours to learn the system maybe only one hour That's how simple the system is You don't believe me Tell me about it after you learn the system from the PBE course To guide you to use the system comfortably I provide 40 songs in Play By Ear Volume 1 for you to work on so that you get lots of practice to become proficient with the Asian Music Notation By the end of the course you will be able to notate your own songs in this numeric notation It totally simplifies the thought process when you play songs To me this is most valuable because it frees the student from reading the more complicated music staff notation and helps the student to acquire a QUIET mind to listen to the sounds deeply to play with ease and with creative freedom Level Beginners to Advanced In this course you will learn 10 steps to start playing songs by EAR The principles of playing by ear are laid out in detail I also demonstrate in audios and in 40 videos with animated dotted keyboards to teach you how to play in different

keys with the Asian Numeric Music Notation Each video shows a song demonstrated in at least 3 keys This is a further look at the approach I take in this Series Think in SCALE TONE NUMBERS to play BY EAR To play a song by ear first limit yourself to the 7 scale tones of a key I use software animated videos that show you clearly how to apply the simple Asian Music Notation to playing songs by ear I first demonstrate how this is easily done in the key of C Play song easily in ALL 12 KEYS What you can do to the key of C can easily be done to any key even in the more difficult keys such as Db key B key or F key The thinking and application is CONSISTENT in all 12 keys In my videos using 40 songs I show you how to apply the Asian Numeric Music Notation to playing songs in all 12 different keys I purposely also choose some of the harder keys to play in B Db F so that you can see how easy the system is once your thinking is clear Playing in all keys Simplified FINGERING and HANDSHAPES Learn to LISTEN DEEPLY A lot of ear training programs want to help us to LISTEN DEEPLY to the sounds My approach uses songs to help you listen DEEPLY to the tones you play rather than naming the intervals such as M6 m6 m2 M2 m7 or M7 etc If playing songs by ear is what you want this is perfect for you If you want to learn sound intervals and distinguish them you would have to go for ear training software for those drilling exercises Have fun Rosa

The Farmers' Advocate and Home Magazine ,1926 *The Musical Theory of Existence* Steve Madison, Existence is mathematical music and all of us are the instruments playing the cosmic symphony Our task is simple to arrive not at any old music but the finest music that can possibly be played The ideal music is reached when every player is in perfect harmony with every other player and not a single discordant note is played The orchestra is as one and there are no disruptive soloists trying to play their own song It takes the lifetime of the universe to arrive at this perfect music Every disruptive soloist has to be brought into the collective orchestra Who is the Devil He is the final hold out the last player to be integrated into the orchestra Who is the conductor of the orchestra It is Abraxas the first God the first to play a tuneful song and recruit others to his song Whose side are you on **Exploring Music Contents** Solvi Ystad, Mitsuko Aramaki, Richard
