Excerpt from Questions and Answers on United States History for the Use of Teachers and Students

The following series of questions and answers on United States History was prepared to assist teachers and pupils in reviewing the subject without reading all that the textbook contains

The teacher who gives frequent reviews to his classes will enjoy the satisfaction of knowing that his pupils learn history not merely read it

It is a fact in education that retention is the product of repetition and attention

We learn facts as we learn faces by giving attention repeatedly to them

It has been the ambition of the author to present not only the facts of history but also the philosophy of the subject
