play workshops discussions and e learning are all explored and in each case practical guidance is given to help the reader to become a more effective teacher Though designed for trainees on life support instructor courses *Pocket Guide to Teaching for Medical Instructors* contains practical guidance applicable to any health professional interested in becoming a more effective teacher *Pocket Guide to Teaching for Medical Instructors* Ian Bullock, Mike Davis, Andrew Lockey, Kevin Mackway-Jones, 2015 *Pocket Guide to Teaching for Medical Instructors*, 2008 **Pocket Guide to Teaching for Medical Instructors** Advanced Life Support Group, Mike Walker, 1998-12-15 This is a practical guide to the theoretical knowledge and skills that underpin good teaching It is aimed particularly at teachers of life support courses but the content is applicable to all teaching **The Insider's Pocket Guide to Navigating a Faculty Career in Academic Medicine** Heather Brod, Kimberly Skarupski, 2024-09-17 The purpose of this indispensable and concise title is to provide a roadmap to a fulfilling and successful career in academic medicine A comprehensive guide tailored to the unique needs and experiences of faculty members this engaging and easy to read book addresses the most commonly encountered topics in the field bridging the knowing doing gap and offering practical strategies and insights for sustainable success and promotion Developed by two highly accomplished academic career development coaches the work will be of great interest to a wide range of audiences From new hires fresh out of fellowship to post docs to mid or late career academics looking to transition The Insider's Pocket Guide to Navigating a Career in Academic Medicine covers all stages of professional development and features real life stories from colleagues across education research and healthcare Delve into a systematic overview of academic medicine explore personal development through vision and mission statements and master the art of job searches and negotiations Learn the importance of onboarding networking and mentorship while developing organizational savvy Confront common challenges enhance well being with diversity and inclusion and achieve work life integration Further this invaluable career resource includes supplemental worksheets and links from the author's website to ensure you have all the tools you need to build a thriving career A unique significant contribution to the career literature in academic medicine this handy guide is the ultimate companion for navigating career transitions and growth opportunities setting you on the path to a rewarding and aligned career in academic medicine **Obstetric Decision-Making Simulation** Kirsty MacLennan, Catherine Robinson, 2019-03-28 A practical guide to decision making and establishing simulation training within a multidisciplinary obstetric team *Research Anthology on Adult Education and the Development of Lifelong Learners* Management Association, Information Resources, 2021-03-19 Whether it is earning a GED a particular skill or technical topic for a career taking classes of interest or even returning to begin a degree program or completing it adult learning encompasses those beyond the traditional university age seeking out education This type of education could be considered non traditional as it goes beyond the typical educational path and develops learners that are self initiated and focused on personal development in the form of gaining some sort of education Essentially it is a voluntary choice of learning throughout life for personal and

professional development While there is often a large focus towards K 12 and higher education it is important that research also focuses on the developing trends technologies and techniques for providing adult education along with understanding lifelong learners choices developments and needs The Research Anthology on Adult Education and the Development of Lifelong Learners focuses specifically on adult education and the best practices services and educational environments and methods for both the teaching and learning of adults This spans further into the understanding of what it means to be a lifelong learner and how to develop adults who want to voluntarily contribute to their own development by enhancing their education level or knowledge of certain topics This book is essential for teachers and professors course instructors business professionals school administrators practitioners researchers academicians and students interested in the latest advancements in adult education and lifelong learning How to Teach Continuing Medical Education Mike Davis, Kirsty

Forrest, 2009-04-15 This new volume in the concise How To series explores the foundations and principles of continuing education of professionals and then relates these to the practice of teaching the various modalities used in CME The areas covered include experiential learning group dynamics situated learning and reflective practice and make these understandable for all health professionals tasked with teaching continuing medical education An ideal introduction to teaching for clinical instructors *Advanced Cardiac Life Support* Philip Jevon, 2013-07-18 Advanced Cardiac Life Support In the event of an adult cardiac arrest it is essential to be able to respond rapidly providing safe and effective care This new and updated edition of Advanced Cardiac Life Support provides the theoretical background to resuscitation as well as explaining the essential resuscitation skills required to manage an adult cardiac arrest from the time it occurs until subsequent transfer to the ICU The emphasis is on the prevention of cardiac arrest with detailed information on the management of peri arrest arrhythmias and acute coronary syndromes Advanced Cardiac Life Support also discusses ethical and legal issues record keeping dealing with bereavement audit equipment and training providing an essential quick reference tool for nurses and health care professionals An evidence based approach to emergency care based on the latest Resuscitation guidelines A succinct yet comprehensive guide to the management of cardiac arrest Written by an experienced resuscitation training officer who is also a qualified nurse and former CCU Charge Nurse **Major Incident Medical**

Management and Support Advanced Life Support Group (ALSG), 2011-11-03 Major Incident Medical Management and Support MIMMS is the coursebook for the Advanced Life Support Group's internationally taught training for health care professionals responding to major incidents The practical approach employed in MIMMS has proved an invaluable aid to both civilian and military doctors nurses and paramedics working in disaster management worldwide The third edition has been fully revised to make MIMMS appropriate for the 21st century with greater emphasis on human factors a more structured approach to medical management and new chapters on Hazardous materials Incidents involving large numbers of children Management of a major incident with multiple burn casualties Mass gatherings Natural disasters There are also revised

appendices covering responsibility for the dead radio use and voice procedures and what to do beyond the immediate situation Covering all eventualities in medical management during major incidents MIMMS provides a comprehensive and practical guide for all who are involved in this aspect of emergency medicine *Paediatric Advanced Life Support* Philip Jevon, 2012-05-07 In the event of a paediatric cardiac arrest it is essential to be able to respond rapidly providing safe and effective care The second edition of this successful text provides nurses with a practical and systematic guide to the rapid assessment and delivery of appropriate resuscitation to infants and children Conforms to current European Resuscitation Council Guidelines Based on up to date research and evidence based practice protocols Synoptic approach enables rapid delivery of effective treatment Written by experts in the field of both resuscitation and paediatrics *Paediatric Advanced Life Support* is a succinct yet comprehensive guide and is an essential purchase for any health professional likely to encounter an emergency situation **Developing Healthcare Skills through Simulation** Matthew Aldridge, Stephen

Wanless, 2012-03-22 This book provides an essential resource for educators of clinical skills who want to utilise simulation based education to provide optimal learning opportunities for their students Andrew Bland University of Huddersfield In this book a team of experienced authors have put together a much needed text that takes an evidence based practical approach to skills development Lauren Mawson University of Cumbria A really exciting new text Sarah Burden Leeds Metropolitan University Practice educators and mentors are now expected to have the skills and techniques needed to implement a learning skills through simulation programme into established curricula yet using simulation to teach while of huge importance requires careful and time consuming planning This valuable resource takes away some of that burden by providing clear ready made activities and guidance from leading practitioners in a range of fields which healthcare and practice educators and mentors can use to enhance their teaching of all the essential and commonly taught clinical and management skills and knowledge Dedicated chapters which all follow a defined step by step format provide simulation scenarios alongside facilitator guidance which will help develop confidence in the teaching of key skills such as Drug administration Conflict management Infection control Breaking bad news Catheter and bowel care These scenarios and accompanying guidance can be used as a framework for teaching promoting a greater understanding of the skill being taught and providing a risk free opportunity for the student to practice their clinical and managerial skills and judgement

Collaborative Knowledge Creation Anne Moen, Anders I. Mørch, Sami Paavola, 2012-10-26 This book presents perspectives on the knowledge creation metaphor of learning and elaborates the triological approach to learning The knowledge creation metaphor differs from both the acquisition and the participation metaphors In a nutshell triological approaches seek to engage learners in joint work with shared objects and artefacts mediated by collaboration technology The theoretical underpinnings stem from different origins including Bereiter and Scardamalia's theory on knowledge building and Engeström's activity theory The authors in this collection introduce key concepts and techniques explain tools designed and developed to

support knowledge creation and report results from case studies in specific contexts The book chapters integrate theoretical methodological empirical and technological research to elaborate the empirical findings and to explain the design of the knowledge creation tools The target audiences for this book are researchers teachers and Human Resource developers interested in new perspectives on collaborative learning technology mediated knowledge creation and applications of this in their own settings for higher education teacher training and workplace learning The book is the result of joint efforts from many contributors who took part in the Knowledge practices Laboratory KP Lab project 2006 2011 supported by EU FP6
