"ECEG2016-Proceedings of 16th European Conference on e-Government ECEG 2016 " Mitja De Man,Tina Juki,2016-06-02      **The South China Sea Arbitration** Alfredo C. Robles,2019-01-01 The South China Sea Arbitration which marks the first time that the Philippines and China have been parties to a compulsory dispute settlement procedure is a landmark legal case The Tribunal tackled head on critical issues in the interpretation and application of the UN Convention on the Law of the Sea that other international courts have failed to address particularly the compatibility of historic rights with the Convention the identification of maritime features as permanently submerged or above water at high tide and the distinction between features that are fully entitled to maritime zones and those that are not In addition the Tribunal also had to decide on issues as diverse as near collisions at sea illegal fishing of giant clams and sea turtles and the destruction of fragile coral reefs resulting from island building The Tribunals task was rendered arduous by Chinas refusal to appear before it In these circumstances understanding the Tribunals decisions is a challenging undertaking Chinas public relations campaign targeting the proceedings raised issues that the layperson could readily grasp notably African states support for its non appearance the integrity of the judges and the validity of arbitral awards Understanding the Awards and Debating with China aims to facilitate understanding of the South China Sea Arbitration by presenting detailed summaries of the two Arbitral Awards The author rebuts the questionable claims raised by Chinas public relations campaign and highlights Chinas covert actions during the proceedings      Annual Report South Africa. understood beyond a state centric paradigm by focusing on the political economic environmental and societal threats at macro meso and micro levels The book suggests that at the core of cross border security challenges in the Southern African region is a post colonial governmentality This drives the nationalisation of cross border security as though it is the only security leading to nation states in turn depoliticising and invisibilising the security and livelihoods of ordinary people even when nation states claim to be protecting the same The book will be a useful resource for students scholars and researchers of African Studies Border Studies Human Geography Migration Studies Development Studies International Studies International Relations Political Science and Security Studies     The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces ,1886     **About the Relevance of Snow Microstructure Study in Cryospheric Sciences** Maurine Montagnat,Guillaume Chambon,Johan Gaume,Melody Sandells,Pascal Hagenmuller,2021-01-07     **Rule of law in the governance of new frontiers of the marine environment** Yen-Chiang Chang,Kum Fai Yuen,David Ong,Shih-Ming Kao,2023-10-06     **Freedom of Speech in International Law** Amal Clooney,David Neuberger,2024 Freedom of Speech in International Law charts the minimum protections for speech enshrined in international human rights law It not only addresses the problems facing free speech today but offers recommendations to give effect to the international law obligation to protect freedom of expression     **For a Sweet World - Towards Sustainable Sugar Crops** Piergiorgio Stevanato,J.
