MILITARY SKILLS DEVELOPMENT SYSTEM (MSDS) 2019

BACKGROUND

THE MILITARY SKILLS DEVELOPMENT SYSTEM (MSDS)

The South African Army, through its Military Skills Development System (MSDS), is offering young South African citizens an opportunity to serve in uniform over a two-year period. The Military Skills Development System is a two-year voluntary service system with the long term goal of enhancing the SA National Defence Force's deployment capability.

Successful MSDS candidates will be appointed in a specific **mustering** and will be called up to a Training Unit, where members will complete their Basic Military Training, **specific mustering** and functional training in the first year and be utilized or deployed in the second year of the MSDS.

Requirements:

- No dual citizenship be a South African citizen only
- **Grade 12 Applicants must be between the ages of 18-22 years**
- Graduates and/or other Tertiary Qualification up to the age of 28 years
- Successfully completed Grade 12 (preferable with university entrance)
- Leadership potential
- Not be area bound
- Have no criminal offence record or pending cases
- Comply with medical fitness requirements for appointment in the SANDF
- Be prepared to serve in uniform, undergo Basic Military and Functional Training

Trainings:

The SA Army's mandate focuses on the provisioning of combat ready forces and plays a leading role in landward operations. Training will be decentralized to operational units where members will be appointed to undergo Basic Military Training, **mustering** training and be deployed as per **requirements** of the South African Army.

Incomplete forms will not be considered. Only applicants who have passed Grade 12 may apply and must not be older than the age stipulated above on the date of reporting for training. Certified copies of ID document, Grade 12 certificate or Post grade 12 qualifications and CV must accompany this application form to SA Army Recruitment, Private Bag X 981, Pretoria, 0001.

N.B. During the selections, the applicants will be subject to Psychometric evaluations; Medical Evaluations; Vetting and Verification of qualifications.

Endsley,2016-04-19 Liberally illustrated with actual design examples this book demonstrates how people acquire and interpret information and examines the factors that undermine this process The second edition expands and updates the examples throughout to include a wider range of domains and increases the coverage of SA design principles and guidelines to include new areas of development

Homeland Fascism Herman Schwendinger,Julia Schwendinger,2016-06-23 It can t happen here This has been the prevailing sentiment about the possible emergence of fascism in the United States since the rise of international fascism in the 1930s Yet there are signs that it may already be happening and at the highest levels of government In their copiously researched and documented work the Schwendingers outline the structural transformations policies and practices that raise the prospect of fascist governance in the 21st Century United States They show that a homeland fascism has significant supports within the framework of American liberal democracy This is an important analysis in a context in which concerns about fascist demagoguery and far right mobilization appear to be growing in the US and beyond *Working Dogs: Form and Function, 2nd Edition* Cynthia M. Otto,Erik Wilsson,Mia Cobb,2020-03-27 Dogs partner with humans in a wide array of work related disciplines As detectors guides guardians stock herders assistants and professional canine athletes there is demand for more scientific knowledge to enhance the performance and success of human and working dog partnerships This topic encompasses a holistic approach to the science of working dog performance The ability of a dog to complete tasks depends on their physical and behavioral traits their ability to exert themselves at various demanding tasks requires both

physical and behavioral stamina agility and resilience The influence and interactions of genetics health environment and training are areas that can provide new insight to improve performance in current dogs and future generations The human impact on the success of the working dog team encompasses the human s physical psychological and analytic perspectives and the intersection of human and canine interspecies communication *Korean War Filmography* Robert J.

Lentz,2016-05-01 The Korean experience changed the way Americans viewed war The lack of a clear cut victory inspired filmmakers to try to make sense of fighting another country s civil war and risking American lives for an unpopular cause This filmography details more than 90 English language films Each entry includes complete cast and credit listings a plot synopsis evaluation review snippets and notice of video availability This book places each film in its historical context assesses the essential truthfulness of each film and evaluates its entertainment value and discusses how and why Korean War films differ from other Hollywood war genres Four appendices list the films by chronology production company and studio level of historical accuracy and subject and theme Additional appendices list films with incidental references to the Korean War documentaries on the Korean War and South Korean films about the war Photographs a bibliography and an index are included

Challenges to Mean-Based Analysis in Psychology: The Contrast Between Individual People and General Science Craig P. Speelman,Marek McGann,2016-11-29 In a recent paper we Speelman McGann 2013 argued that psychology s reliance on data analysis methods that are based on group averages has resulted in a science of group phenomena that may be misleading about the nature of and reasons for individual behaviour The paper highlighted a tension between a science in search of general laws on the one hand and the individual variable and diverse nature of human behaviour on the other This Research Topic explored this concern about the pitfalls of using the mean for the basis of psychological science The problem is universal in its applicability to psychology and opinion papers reviews and original empirical research from all areas of the discipline were invited A total of 16 authors contributed 9 articles to the Topic The range of issues that the authors viewed through the lens provided is impressive The papers in this collection include a range of perspectives that provide concrete examples of how to approach research design data collection and analysis differently No one contribution will provide a solution to our multifarious challenges but nor should it Our subject matter is complex and subtle our investigations and methodological techniques will need to be equally so Mindfulness and health Chienchung

Ruys,Olivier Corten,Alexandra Hofer,2018-04-26 The international law on the use of force is one of the oldest branches of international law It is an area twinned with the emergence of international law as a concept in itself and which sees law and politics collide The number of armed conflicts is equal only to the number of methodological approaches used to describe them Many violent encounters are well known The Kosovo Crisis in 1999 and the US led invasion of Iraq in 2003 spring easily to the minds of most scholars and academics and gain extensive coverage in this text Other conflicts including the Belgian operation in Stanleyville and the Ethiopian Intervention in Somalia are often overlooked to our peril Ruys and Corten s expert written text compares over sixty different instances of the use of cross border force since the adoption of the UN Charter in 1945 from all out warfare to hostile encounters between individual units targeted killings and hostage rescue operations to ask a complex question How much authority does the power of precedent really have in the law of the use of force
