In view of this high rate of road crashes resulting from unprofessional conduct and carelessness by some tanker/trailer drivers on the highways, the Federal Government mandated the Federal Road Safety Commission (FRSC) to establish Minimum Safety Requirements for heavy good vehicles.
- 2.0 The administration of minimum safety requirements among others, demand the Articulated lorries (Tankers/Trailers) operators to conform to the Road Transport Safety standardization scheme which ensures the registration of operators with at least 5 (five) vehicles in their fleet and compliance with set-standards. Operators with vehicles less than five are also to comply with the minimum safety standards as clearly spelt out in traffic laws and regulations. The responsibilities of FRSC include monitoring, certifying, registering and enforcing compliance with
