

Toulmin model Essay Example

The Toulmin model is made up of six elements. The elements include: claim, ground, warrant, backing, rebuttal, and qualification. Qualification provides the specifications outlining limits to a claim, backing and warrant. Rebuttal represents exceptions due to a claim. This is represented by counter-examples and counter arguments. Backing is offering support to justify a position.

Warrant indicates the reasoning that links the grounds to a claim. The grounds present evidence in support of a claim. Finally, a claim is a position on which an argument is premised.[1] On the basis of this, one gets the feeling that Toulmin was trying to induce the element of morality while arguing in support of something.

Christians present one of the largest religious groups in the world.[2] Christians are known for their pursuit of what they refer to as justice.[3] They thus in this pursuit observe the role of morality on relating to other people. As the biblical doctrine outlines, man was created and put in charge of the rest of the inhabitants of the earth including the environment. Simply put, man was given authority to govern or rule over the environment on the basis of this provision.

In the same line, man is expected to obey every guideline handed by the creator.[4]The environment is of insurmountable value to society as a whole.[5] In the recent past the environment has made news headlines for the wrong reasons. Apparently, the human inhabitants of the environment are playing a very critical role in the destruction of this haven. It is thus obvious that the environment is facing all sorts of threats from the human population. However, humanity is equally threatened by these events just as any earthly inhabitants.

Amidst this quagmire, the Christian faith appears to have taken a back seat. I hold the view that Christians should arise and play a role towards enhancing or the setting of initiatives to check the ongoing destruction on the environment. The concerns facing the globe are so diverse in different parts of the globe.[6] Though the environmental issue has taken precedence in the recent past, it has dogged society since time immemorial.

The main environmental concerns in the world relate to air contamination, soil contamination, water contamination, solid contamination, solid contamination, etc. A tricky aspect in the campaign against environmental pollution rests on the fact that most activities involved are directly beneficial to the lives of the people. [7] As a Christian, ensuring good quality of life is a desirable attribute. This is grounded on the fact that each individual is entitled to a good life. If the pursuit of Christianity is to ensure good life and environmental destruction works against this goal, then Christians are bound to take action.

Environmental destruction alters the quality of life adversely by affecting various aspects in the life of people. To begin with, environmental pollution h

Arguing on the Toulmin Model David Hitchcock, Bart Verheij, 2007-01-24 Summarizing in The Uses of Argument Toulmin emphasized a number of points that are by now familiar but still deserve attention 1 Reasoning and argument involve not only support for points of view but also attack against them 2 Reasoning can have qualified conclusions 3 There are other good types of argument than those of standard formal logic 4 Unstated assumptions linking premisses to a conclusion are better thought of as inference licenses than as implicit premisses 5 Standards of reasoning can be field dependent and can be themselves the subject of argumentation Each of these points is illustrated by his layout of arguments The rebuttal illustrates the first point the qualifier the second point and the warrant and backing the last three points 2 RECEPTION OF TOULMIN S BOOK As Toulmin himself notes in his essay in this volume which was delivered as an address in 2005 his fellow philosophers we re initially hostile to the ideas in his book They were taken up however by specialists in fields like jurisprudence and psychology who found that they fit the forms of argument and reasoning that they were studying And Toulmin s model was embraced by the field of speech communication in the United States whose textbooks on argumentation now include an obligatory chapter on the Toulmin model of micro arguments
