the post pandemic education and research strategies to ensure student learning outcomes and standards of educational
quality With the move to online teaching and learning subsequently traditional assessments followed and were adapted and
adopted for online assessment Assessments lie at the heart of the teaching process It shapes students understanding of the
curriculum and determines their ability to progress Reflections on assessments during Covid 19 abounded with the
challenges that both academics and students faced regarding online assessments including cheating and quality assurance
issues The focus on quality extended to the quality of teaching and learning in general Moreover the pandemic brought about
the question of staff and student health and psychosocial support also became important For academics the abrupt shift to
adapt to working from home and implementing online learning has led to over work low work life balance and compromised
mental health With a view on constructive and futuristic discourse the sub themes of the 2022 Focus conference encapsulate
the current realities in the higher education sector and beyond It further provides opportunities for an in depth analysis
based on the benefit of hindsight and foresight The Organising Committee specifically coined the theme Re inventing higher
education Insights trends and lessons learnt from specifically for the conference to reflect on and address the matters
mentioned earlier Academics scholars and practitioners in the higher education sector are called upon to share their
