Disaster Governance in Urbanising Asia Michelle Ann Miller, Mike Douglass, 2015-12-09 This edited book approaches the threat and impact of environmental disasters on Asia's urban populations from a governance perspective. It adopts a multi-sector and multi-disciplinary approach to disaster governance that emphasises the importance of multiple stakeholders in preparing for, responding to, and recovering from disasters and their cascading impacts in Asia's cities. The contributors to this volume take a broad view of the multifaceted causalities and the interconnected threats and vulnerabilities of environmental disasters in urbanising Asia. As such, the book is an invitation to advance scholarship in the search for more effective, comprehensive, and inclusive disaster preparedness, recovery programs, and development priorities.

Theory and Practice in Hospitality and Tourism Research Salleh Mohd Radzi, Mohd Faez Saiful Bakhtiar, Zurinawati Mohi, Mohd Salehuddin Mohd Zahari, Norzuwana Sumarjan, C.T. Chik, Faiz Izwan Anuar, 2014-08-12 Theory and Practice in Hospitality and Tourism Research includes 111 contributions from the 2nd International Hospitality and Tourism Conference 2014 Penang Malaysia 2-4 September 2014 and covers a comprehensive range of topics including Hospitality management, Hospitality tourism marketing, Tourism management, Technology innovation. *The State and Cosmopolitan Responsibilities* Richard Beardsworth, Garrett Wallace Brown, Richard Shapcott, 2019 This book explores the role that states might play in promoting a cosmopolitan condition as an agent of cosmopolitanism rather than an obstacle to it. In doing so, the book seeks to develop recent arguments in favour of locating cosmopolitan moral and political responsibility at the state level as either an alternative to or a corollary of cosmopolitanism as it is more commonly understood, requiring transnational or global bearers of responsibility. As a result, the contributions in this volume see an ongoing role for the state but also its transformation, perhaps only partially, into a more cosmopolitan-minded institution instead of a purely national or particularistic one. It therefore makes the case that the state as a form of political community can be reconciled with various forms of cosmopolitan responsibility. In this way, the book will address the question of how states in the present and in the future can be better bearers of cosmopolitan responsibilities.

Cruise Tourism in the Caribbean Martha Honey, 2019-06-17 This book explores the lessons learned from half a century of Caribbean cruise tourism, one of the most popular and profitable sectors of the tourism industry. The modern-day cruise industry dates from the 1960s when the three major cruise lines, Carnival, Royal Caribbean, and Norwegian, set up shop in Florida and began selling winter cruises to the Caribbean, targeting American retirees. For geopolitical reasons, the US initially excluded cruises to Cuba. This changed in 2016 following the historic Obama-Castro agreement to move towards diplomatic trade and travel normalization. Cuba quickly became the Caribbean's fastest growing cruise destination. This book considers the limited economic benefits of cruise tourism, its environmental and social impacts, and the effects of climate change and overtourism. Based on this analysis and case studies of key Caribbean and Mediterranean destinations, this book cautions against overdependence on cruise

tourism and outlines reforms needed to bring more benefits and equity to Caribbean countries It will be valuable to professionals businesses development agencies NGOs and academics interested in a sustainable cruise industry and the economic well being of Caribbean island nations **Imagining the Tropics** Elizabeth S. Continuing Imperialism of Free Trade Jo Grady, Chris Grocott, 2018-10-08 In 1953 John Gallagher and Ronald Robinson shook the foundations of imperial history with their essay *The Imperialism of Free Trade*. They reshaped how historians saw the British empire focussing not on the red bits on the map and the wishes of policy makers in London but rather on British economic and political influence globally. Expanding on this analysis this volume provides an examination of imperialism which brings the reader right up to the present. This book offers an innovative assessment and analysis of the history and contemporary status of imperial control. It does so in four parts examining the historical emergence and traditions of imperialism the relationships between the periphery and the metropolitan the role of supranational agencies in the extension of imperial control and how these connect to financialisation and international political economy. The book provides a dynamic and unique perspective on imperialism by bringing together a range of contributors both established and up and coming scholars activists and those from industry from a wide range of disciplines and backgrounds. In providing these authors a space to apply their insights this engaging volume sheds light on the practical implications of imperialism for the contemporary world. With a broad chronological and geographical sweep this book provides theoretical and empirical engagements with the nature of imperialism and its effects upon societies. It will be of great interest to a broad range of disciplines across the humanities and social sciences especially those working in History Politics and Management and Organisation Studies.

Resisting Garbage Lily Baum Pollans, 2021-11-02 *Resisting Garbage* presents a new approach to understanding practices of waste removal and recycling in American cities one that is grounded in the close observation of case studies while being broadly applicable to many American cities today. Most current waste practices in the United States Lily Baum Pollans argues prioritize sanitation and efficiency while allowing limited post consumer recycling as a way to quell consumers environmental anxiety. After setting out the contours of this weak recycling waste regime Pollans zooms in on the very different waste management stories of Seattle and Boston over the last forty years. While Boston's local politics resulted in a waste export program with minimal recycling Seattle created new frameworks for thinking about consumption disposal and the roles that local governments and ordinary people can play as partners in a project of resource stewardship. By exploring how these two approaches have played out at the national level *Resisting*
