The Special Tribunal for Lebanon Amal Alamuddin, Nidal Nabil Jurdi, David Tolbert, 2014-03-27 This book provides a full analytical overview of the establishment and functioning of the Special Tribunal for Lebanon the newest and most

controversial of the UN sponsored international criminal courts In 2005 Lebanese Prime Minister Rafic Hariri was assassinated in a huge blast that reverberated across Lebanon and the region The Tribunal was established with a mandate to try the perpetrators of the Hariri killing as well as those responsible for other killings that are connected to this core crime Individuals associated with the Hezbollah group have been indicted to be tried in the court in The Hague but in their absence as their locations are unknown The Tribunal is the UN s first attempt at addressing terrorism in an international criminal court and the first attempt to set up international trials following crimes committed in the Middle East region The court s narrow mandate and unique procedures have led many to question what kind of precedent it will set in a volatile region This book looks at how the court was established its foundational principles based on the Statute of the International Criminal Court and Lebanese domestic law and the possible further development of its case law It provides an authoritative guide to the procedure of the Tribunal the status of the Registry the rights of suspects and accused trials in absentia and the regulation of the conduct of counsel drawing on comparisons to other international courts The authors include those involved in setting up the court prosecutors defence counsel for the suspects as well as judges and academic commentators who are experts on the issues covered in the book They provide a probing insight into how the Tribunal came into being its challenges controversies and its achievements to date

**The German Prosecution Service** Shawn Marie Boyne,2013-11-19

Acclaimed as the the most objective prosecutors in the world the German prosecution service has long attracted the attention in the past of comparative law scholars At first glance the institutional position and statutory mandate of German prosecutors indicate that that reputation is well deserved Unfortunately the introduction of charge bargaining has opened the door to criticism that German prosecutors have abandoned their role of objective decision makers Using interview data collected from interviews with German prosecutors themselves as well as quantitative data the book uses the actual voices of German prosecutors to show how real world constraints rather than changes in the law undermine the ability of German prosecutors to objectively seek the truth The book will take readers behind closed doors where prosecutors discuss case decisions and unveil the realities of practice As a result it will critically revise previous studies of German prosecution practices and offer readers a well researched ethnographic analysis of actual German decision making practices and the culture of the prosecution service Unlike prosecutors in America s adversarial system whom critics claim are driven by a conviction mentality and gamesmanship German prosecutors are institutionally positioned to function as at least semi judicial officials dedicated to finding a case s objective truth The book argues that organizational incentives and norms rather than the boundaries of the law determinately shapes how prosecutors investigate and prosecute crime in Germany
