Sa Army Forms 2015:

South Africa and United Nations Peacekeeping Offensive Operations Antonio Garcia, 2018-08-17 The creation of the Force Intervention Brigade FIB as the sharp tactical edge of the United Nations Stabilisation Mission in the Democratic Republic of the Congo MONUSCO tasked with the neutralising of armed groups was a watershed moment in the history of modern peace missions What was more significant was that sub Saharan national leaders were instrumental in the creation of the FIB South Africa Tanzania and Malawi but lacked the resources to deploy such a force and consequently the brigade was deployed under the banner of the UN With the legacy of an African Renaissance and its role in the conception of the FIB South Africa remains a critical player in international peace and security in sub Saharan Africa and therefore holds a key strategic role in achieving the FIBs objectives This comes at a critical time where blue helmets are increasingly exposed to complex and challenging security contexts The aim of this work is to provide a conceptual model for South African military future operations and UN offensive peacekeeping operations In this undertaking a layer of military and Clausewitzian theory is added to offensive peacekeeping operations Furthermore there are sections on operational constructs capstone and operating concepts doctrine and structural elements as well a section on mine action This book contributes towards an understanding of the nature of modern strategy through the lens of UN offensive peacekeeping operations and provides insights into operational challenges

Contemporary Issues in South African Military Psychology Nicole Dodd, Petrus C. Bester, Justin van der Merwe, 2020-05-13 Contemporary Issues in South African Military Psychology is a well timed extremely thought provoking imperative particular to the African context and deals with a highly contemporary issue within the people management and the management studies fields specifically in the military field and context This is specifically of importance as military psychology is a behavioural science that combines theory and practical application Prof Karel Stanz University of Pretoria **Military Review**, 2017

Intra-Africa Migrations Inocent Moyo, Jussi P. Laine, Christopher Changwe Nshimbi, 2021-02-21 This book discusses regional and continental integration in Africa by examining the management of migration across the continent It examines borders and securitisation of migration and the challenges and opportunities that arise out of reconfigured continental demographics The book offers insights on intra Africa migrations and highlights how intra continental migration creates socio economic and cultural borders It explores how these borders beyond the physical boundaries of states including the Berlin Conference constructed borders create cultural divides challenges for economic integration and cross border security and irregular migration patterns While the movement of economic goods is valued for regional economic integration the mobility of people is seen as a threat This approach to migration contradicts the intentions of true integration and development and triggers negative responses such as xenophobia that cannot be addressed by simply managing the physical border and allowing free movement This book engages in a pivotal discussion of these issues which are hitherto missing in African border studies by demonstrating the ubiquity and overreaching influence of various kinds of

borders on the African continent With multidisciplinary contributions that provide an in depth understanding of intra Africa migrations and strategies for enhanced migration management this book will be a useful resource for scholars and students studying geography politics security studies development studies African studies and sociology **South Africa's**

Post-Apartheid Military Lindy Heineken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994 In South Africa's changed political state how has civilian control of the military been implemented and what does this mean for defence in a democracy This book presents an overview of the security environment how the mission focus of the military has changed and the implications for force procurement force preparation force employment and force sustainability The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force the effect of affirmative action on meritocracy recruitment and retention military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment gender equality and mainstreaming the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged HIV AIDS and the consequences this holds for the military in terms of its operational effectiveness In closing the author highlights key events that have caused the SANDF to become lost in transition and transformation spelling out some lessons learned The conclusions she draws are pertinent for the future of defence security and civil military relations of countries around the world **General**

Regulations for the Army United States. Department of the Army, 1963 Netherlands Annual Review of Military Studies 2017 Paul A.L. Ducheine, Frans P.B. Osinga, 2017-07-14 With a foreword by Major General Nico Geerts Commander Netherlands Defence Academy Breda The Netherlands International conflict resolution increasingly involves the use of non military power and non kinetic capabilities alongside military capabilities in the face of hybrid threats In this book counter measures to those threats are addressed by academics with both practical and theoretical experience and knowledge providing strategic and operational insights into non kinetic conflict resolution and on the use of power to influence affect deter or coerce states and non state actors This volume in the NL ARMS series deals with the non kinetic capabilities to address international crises and conflicts and as always views matters from a global perspective Included are chapters on the promise practice and challenges of non kinetic instruments of power the instrumentality of soft power information as a power instrument and manoeuvring in the information environment Russia's use of deception and misinformation in conflict applying counter marketing techniques to fight ISIL using statistics to profile terrorists and employing tools such as Actor and Audience Analysis Such diverse subjects as lawfare the Law of Armed Conflict rules for non kinetic cyber attacks navigation warfare GPS spoofing maritime interception operations and finally as a prerequisite innovative ways for intelligence collection in UN Peacekeeping in Mali come up for discussion The book will provide both professionals such as foreign policy makers and those active in the military services academics at a master level and those with an interest in

military law and the law of armed conflict with useful and up to date insights into the wide range of subjects that are contained within it Paul A L Ducheine and Frans P B Osinga are General Officers and full professors at the Faculty of Military Sciences of the Netherlands Defence Academy in Breda The Netherlands Specific to this volume in the Series Written by academics with both practical and theoretical experience Addresses counter measures to hybrid crises Offers both strategic and operational insights to non kinetic conflict resolution Rethinking Humanitarian Intervention in the 21st Century Aiden Warren, 2017-06-02 Since the end of the Cold War humanitarian interventions have continued to evolve and respond to a wide range of political crises These insightful essays focus on the challenges associated with interventions when facing conflict and human rights violations unmitigated systematic violence state re building human mobility and dislocation Each chapter is linked to the rest through three defining themes that permeate the book the evolution of humanitarian interventions in a global era the limits of sovereignty and the ethics of interventions and the politics of post intervention re building and humanitarian engagement The authors incorporate a variety of case studies including Kosovo Timor Leste Syria Libya and Iraq and examine the complexity of interventions across their different dimensions including relevant doctrines such as R2P Use of Force and Human Security **The Handbook of African Defence and Armed Forces** Evert Kleyhans, Marco Wyss, 2025-03-01 The Handbook of African Defence and Armed Forces provides the first in depth and multifaceted analysis of the evolution and current state of national defence policies strategies doctrines capabilities security challenges and strategic responses of African states and their armed forces Geographically these aspects are investigated at the national sub regional and regional levels Chronologically they are analysed against the backdrop of the superpower withdrawal from the continent in the 1990s and the so called New Scramble for Africa which has seen a crescendo of renewed great power interest in the continent s resources as well as its strategic role location and relevance since the 2000s The book takes a bottom up and African centric approach and is organized around five key themes i the differing security outlooks and defence policies of African powers within the region and the different sub regions ii the strategies doctrines transformation and employment of African armed forces iii the relationship between African armed forces with sub regional regional and international organizations iv the challenges that African states and their armed forces have been facing and their strategic responses and v the position of African perspectives and agency in the context of continental and international security and defence Understanding African security and defence especially in terms of each individual nation s ability to contribute to peacekeeping operations counterterrorism border security and internal security requires a focus on the national level of armed forces and defence policies this in turns sheds light on sub regional and regional divergences challenges and cooperation Based on this framework the chapters in this volume offer comprehensive African perspectives on African and international security and defence and in doing so show the agency of the continent s countries and armed forces in International Security and Relations **Professional Journal of the United States Army**, 2017-07 *Fighting*

at the Legal Boundaries Kenneth Watkin OMM, CD, QC, 2016-05-03 The international law governing armed conflict is at a crossroads as the formal framework of laws designed to control the exercise of self defense and conduct of inter state conflict finds itself confronted with violent 21st Century disputes of a very different character Military practitioners who seek to stay within the bounds of international law often find themselves applying bodies of law IHRL IHL ICL in an exclusionary fashion and adherence to those boundaries can lead to a formal and often rigid application of the law that does not adequately address contemporary security challenges *Fighting at the Legal Boundaries* offers a holistic approach towards the application of the various constitutive parts of international law The author focuses on the interaction between the applicable bodies of law by exploring whether their boundaries are improperly drawn or are being interpreted in too rigid a fashion Emphasis is placed on the disconnect that can occur between theory and practice regarding how these legal regimes are applied and interact with one another Through a number of case studies *Fighting at the Legal Boundaries* explores how the threat posed by insurgents terrorists and transnational criminal gangs often occurs not only at the point where these bodies of law interact but also in situations where there is significant overlap In this regard the exercise of the longstanding right of States to defend nationals including the conduct of operations such as hostage rescue can involve the application of human rights based law enforcement norms to counter threats transcending the conflict spectrum This book has five parts Part I sets out the security legal and operational challenges of contemporary conflict Part II focuses on the interaction between the jus ad bellum humanitarian law and human rights including an analysis of the historical influences that shaped their application as separate bodies of law Emphasis is placed on the influence the proper authority principle has had in the human rights based approach being favored when dealing with criminal non State actors during both international and non international armed conflict Part III analyzes the threats of insurgency and terrorism and the state response This includes exploring their link to criminal activity and the phenomenon of transnational criminal organizations Part IV addresses the conduct of operations against non State actors that span the conflict spectrum from inter state warfare to international law enforcement Lastly Part V looks at the way ahead and discusses the approaches that can be applied to address the evolving diverse and unique security threats facing the international community *Iraq's Oil and Gas Industry* Janan

Al-Asady, 2019-06-11 Oil an integral part of the contemporary global economy is considered a driving force behind the 2003 invasion of Iraq Hydrocarbon reserves in Iraq have a significant role to play in global supply with oil revenue accounting for more than 90% of Iraqi government income This book provides a comprehensive insight into the key foundations of Iraq's oil industry and assists in the development of a core area of domestic law to promote economic recovery following years of instability It addresses the development of oil legislation and the formation of contracts since the US and allied occupation of Iraq in 2003 Legislation is assessed against the framework of the constitution along with the different types of oil agreements and their terms The book looks at three main aspects of oil legislation beginning with the validity and interpretation of the

constitution as any subsequent legislation governing oil policy will be based upon this The work then discusses whether the draft oil and gas law of 2007 and any subsequent oil legislation including the law implemented by the Kurdish Regional Government in 2007 is valid Finally the book analyses the legitimacy of oil agreements entered into by the central and regional governments and whether these contain terms beneficial to the state and contracting party Providing an in depth analysis of the origins and development of the legal framework of the oil industry in Iraq the book acts as both a reference source and a springboard for future research across a range of legal economic and policy perspectives It will appeal to practitioners and academics working in energy law and international investment law as well as policy makers legal advisors and those working in governments and energy companies *Fighting at the Legal Boundaries* Kenneth Watkin, 2016

Fighting at the Legal Boundaries offers a holistic approach towards the application of the various constitutive parts of international law The author focuses on the interaction between the applicable bodies of law by exploring whether their boundaries are improperly drawn or are being interpreted in too rigid a fashion Emphasis is placed on the disconnect that can occur between theory and practice regarding how these legal regimes are applied and interact with one another Through a number of case studies *Fighting at the Legal Boundaries* explores how the threat posed by insurgents terrorists and transnational criminal gangs often occurs not only at the point where these bodies of law interact but also in situations where there is significant overlap In this regard the exercise of the longstanding right of States to defend nationals including the conduct of operations such as hostage rescue can involve the application of human rights based law enforcement norms to counter threats transcending the conflict spectrum Male Rape, Masculinities, and Sexualities Aliraza Javaid, 2018-10-08

This book critically explores the intersections between male rape masculinities and sexualities It examines the ways in which male rape is policed responded to and addressed by state and voluntary agencies in Britain The book uncovers how notions of gender sexualities and masculinities shape these agencies understanding of male rape and their views of men as victims of rape Javaid pays particular attention to the police and deconstructs police subculture to consider whether it influences and shapes the ways in which police officers provide services for male rape victims Grounded in qualitative interviews and data derived from the state and voluntary sector this book will be invaluable reading for sociologists criminologists and social scientists who are keen to learn more about gender policing sexual violence and male sexual victimisation **Fees Must Fall** Susan Booysen, 2016-10-01

This book explores the student discontent a year after the start of the 2015 South African FeesMustFall revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student

movement has challenged the hierarchical top down leadership system of university management and its double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt

South Yemen's Independence Struggle

Anne-Linda Amira Augustin, 2021-11-30 A bold firsthand account of one of the persistent Arab uprisings in Yemen At its beginning in 2007 the Southern Movement in South Yemen was a loose merger of different people most of them former army personnel and state employees of the People's Democratic Republic of Yemen PDRY who were forced from their jobs after the war in 1994 only four years after the unification between the PDRY and the Yemen Arab Republic This bold ethnographic account of a persistent Arab uprising in a rarely studied corner of the Middle East explores why the Southern Movement has grown so tremendously during the last decade and how it developed from a primarily social movement demanding social rights into a mass protest movement claiming independence for a state that had long vanished from the world map Anne Linda Amira Augustin asks why so many young people born after 1990 joined the movement and demanded the re establishment of a state that they had never themselves experienced At the core of South Yemeni resistance lies the transmission from generation to generation of a dominant counternarrative which may be seen as the continuation and rehabilitation of the PDRY's national narrative This narrative amplified through everyday communication in families and neighborhoods but also by media makers journalists school and university teachers civil society actors and by the movement's activists opposes the national unity narrative of the Republic of Yemen and intensifies the demands for an independent state

Counter-Insurgency in Nigeria Akali Omeni, 2017-09-08 This book offers a detailed examination of the counter insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017 Based on extensive fieldwork conducted with military units in Nigeria Counter Insurgency in Nigeria has two main aims First it seeks to provide an understanding of the Nigerian military's internal role a role that today as a result of internal threats pivots towards counter insurgency The book illustrates how organizational culture historical experience institutions and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents specifically plans and operations between June 2011 and April 2017 Within this second theme emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force

recalibrated themselves for COIN warfare A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy Furthermore the work s analysis of the air force s role in counter insurgency is unprecedented within the literature on military warfare in Nigeria This book will be of great interest to students of military studies counter insurgency counter terrorism African politics and security studies in general

The Handbook of Displacement Peter Adey, Janet C. Bowstead, Katherine Brickell, Vandana Desai, Mike Dolton, Alasdair Pinkerton, Ayesha Siddiqi, 2020-12-11 This Handbook provides the knowledge and tools needed to understand how displacement is lived governed and mediated as an unfolding and grounded process bound up in spatial inequities of power and injustice The handbook ensures first that internal displacements and their everyday re occurrences are not overlooked second it questions who counts by including displaced people who are less obviously identifiable and a clearly circumscribed or categorised group third it stresses that while displacement suggests mobility there are also periods and spaces of enforced stillness that are not adequately reflected in the displacement literature and fourth it re evokes and explores the place in displacement by critically interrogating peoples right to place and the significance of placemaking unmaking and remaking in the contemporary world The 50 plus chapters are organised across seven themes designed to further develop interdisciplinary study of the technologies journeys traces governance more than human representation and resisting of displacement Each of these thematic sections begin with an intervention which spotlights actions to creatively and strategically intervene in displacement The interventions explore myriad meanings and manifestations of displacement and its contestation from the perspective of displaced people artists writers activists scholar activists and scholars involved in practice oriented research The Handbook will be an essential companion for academics students and practitioners committed to forging solidarity care and home in an era of displacement **South African Army Vision 2020** Len Le Roux, 2007

Land Rights, Biodiversity Conservation and Justice Sharlene Mollett, Thembela Kepe, 2018-04-17 In the context of sustainable development recent land debates tend to construct two porous camps On the one side norms of land justice and their advocates dictate that people s rights to tenure security are tantamount and even sometimes key to successful conservation practice On the other hand biodiversity protection and conservation advocates supported by global environmental organizations and states remain committed to conservation strategies steeped in genetics and biological sciences working on behalf of a global mandate for biodiversity and climate change mitigation Land Rights Biodiversity Conservation and Justice seeks to illuminate struggles for land and territory in the context of biodiversity conservation This edited volume explores the particular ideologies narratives and practices that are mobilized when the agendas of biodiversity conservation practice meet clash and blend with the demands for land and access and control of resources from people living in and in close proximity to parks The book maintains that while biodiversity conservation is an important goal in a time where climate change is a real threat to human existence the successful and just future of biodiversity conservation is

contingent upon land tenure security for local people The original research gathered together in this volume will be of considerable interest to researchers of development studies political ecology land rights and conservation
