## **Sadf Training Application For 2015:**

South Africa's Post-Apartheid Military Lindy Heinecken, 2020-01-01 This timely book examines how the South African National Defence Force has adapted to the country's new security political and social environment since 1994. In South Africa's changed political state, how has civilian control of the military been implemented and what does this mean for defence in a democracy? This book presents an overview of the security environment, how the mission focus of the military has changed and the implications for force procurement, force preparation, force employment and force sustainability. The author addresses other issues such as the effect of integrating former revolutionary soldiers into a professional armed force, the effect of affirmative action on meritocracy, recruitment and retention, military veterans looking at the difficulties they face in reintegrating back into society and finding gainful employment, gender equality and mainstreaming, the rise of military unions and why a confrontational instead of a more corporatist approach to labour relations has emerged, HIV/AIDS and the consequences this holds for the military in terms of its operational effectiveness. In closing, the author highlights key events that have caused the SANDF to become lost in transition and transformation, spelling out some lessons learned. The conclusions she draws are pertinent for the future of defence security and civil-military relations of countries around the world.

Counter-Insurgency in Nigeria Akali Omeni, 2017-09-08 This book offers a detailed examination of the counter-insurgency operations undertaken by the Nigerian military against Boko Haram between 2011 and 2017. Based on extensive fieldwork conducted with military units in Nigeria, Counter-Insurgency in Nigeria has two main aims. First, it seeks to provide an understanding of the Nigerian military's internal role, a role that today, as a result of internal threats, pivots towards counter-insurgency. The book illustrates how organizational culture, historical experience, institutions and doctrine are critical to understanding the Nigerian military and its attitudes and actions against the threat of civil disobedience today and in the past. The second aim of the book is to examine the Nigerian military campaign against Boko Haram insurgents, specifically plans and operations between June 2011 and April 2017. Within this second theme, emphasis is placed on the idea of battlefield innovation and the reorganization within the Nigerian military since 2013 as the Nigerian Army and Air Force recalibrated themselves for COIN warfare. A certain mystique has surrounded the technicalities of COIN operations by the Army against Boko Haram and this book aims to disperse that veil of secrecy. Furthermore, the work's analysis of the Air Force's role in counter-insurgency is unprecedented within the literature on military warfare in Nigeria. This book will be of great interest to students of military studies, counter-insurgency, counter-terrorism, African politics and security studies in general.

*In Different Times* Ian van der Waag, Albert Grundlingh, 2019-11-15 This is the first attempt to bring together diverse scholars using different lenses to study South Africa

s Border War As a book it is critical in approach provides deeper reflection and focuses specifically on the SADF experience of the war The result is a more complex picture of the war s dynamics and its legacies Although South Africa is a vastly different country today the study of the Border War opens a range of questions also relevant to contemporary deployments such as in Lesotho 1998 and the Central African Republic 2013 It includes the debate on participation in foreign conflicts on the deployment design and preparation of appropriate modern armed forces and their use as foreign policy instruments in far off theatres on military planning and as the historical controversies regarding the battles at Cuito Cuanavale and Banguui illustrate on the interface between foreign campaigning and domestic politics

**Warfare and Tracking in Africa, 1952-1990** Timothy J Stapleton, 2015-10-06 During the decolonization wars in East and Southern Africa tracking became increasingly valuable as a military tactic Drawing on archival research and interviews Stapleton presents a comparative study of the role of tracking in insurgency and counter insurgency across Kenya Zimbabwe and Namibia

**Southern African Liberation Movements and the Global Cold War 'East'** Lena Dallywater, Chris Saunders, Helder Adegas Fonseca, 2019-06-17 In the global context of the Cold War the relationship between liberation movements and Eastern European states obviously changed and transformed Similarly forms of material aid and ideological encouragement underwent changes over time The articles assembled in this volume argue that the traditional Cold War geography of bi polar

competition with the United States is not sufficient to fully grasp these transformations. The question of which side of the ideological divide was more successful or lucky in impacting actors and societies in the global south is still relevant yet the Cold War perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and transactions that exists until today. Acknowledging the complexities of liberation movements in globalization processes the papers thus argue that activities need to be understood in their local context including personal agendas and internal conflicts rather than relying primarily on the traditional frame of Cold War competition. They point to the agency of individual activists in both Africa and Eastern Europe and the lessons practices and languages that were derived from their often contradictory encounters. In *Southern African Liberation Movements* authors from South Africa Portugal Austria and Germany ask: What role did actors in both Southern Africa and Eastern Europe play? What can we learn by looking at biographies in a time of increasing racial and international conflict? And which creative solutions need to be found to combine efforts of actors from various ideological camps? Building on archival sources from various regions in different languages case studies presented in the edition try to encounter the lack of a coherent state of the art. They aim at combining the sometimes scarce sources with qualitative interviews to give answers to the many open questions regarding Southern African liberation movements and their connections to the East.

**Angola the Failure of Operation Savannah 1975** Miguel Junior, 2015-04-24 After 1974 the South African involvement in the war in Angola begins with the triggering of Operation Savannah a large scale military land offensive that began in October 1975. But the military offensive land forces of the South African Defence Forces were faced with the Widespread Popular Resistance and Operation Carlota military action designed to halt the South African offensive impulse. Under these conditions the armed conflict in Angola becomes a conventional war because of the dimension of the forces involved and the amount of technical military resources employed by the players. Over the course of the war there were offensive moves defensive manoeuvres and all kinds of fire friction resistance incursions combat retreats and marches until the South African Defence Forces were expelled from Angolan territory on March 1976. In general this book analyses Operation Savannah and its developments from a strategic operational and tactical point of view.

*Special Operations Success* James D. Kiras, 2024-10-24 *Special Operations Success* establishes a new benchmark in military theory in this deeply analytic and innovative work. It answers several pressing questions: How successful have American special operations been over the past quarter century? Are special forces fated to cycles of expansion and misuse? Will special forces invariably exceed the authorities granted to them because of they are? Is a general theory of special operations feasible given the range of activities and conditions that fall under the category? Kiras' work is based on two decades of practical teaching and consulting experience within different special operations communities and its analysis and conclusions are designed to inform practitioners policymakers educators and the general public. The book develops a framework in the form of a theory comprising capabilities and control for the comprehensively evaluating special operations.

success and is divided into three parts Part I lays the foundation for a general theory of special operations Part II explores the two component parts of theory capabilities and control and Part III uses various aspects of the theory depending on available information to assess the success of special operations over a twenty year period in the United Kingdom South Africa and the United States

**Chemical Bodies** Alex Mankoo, Brian Rappert, 2018-10-19 In warfare civil unrest and political protest chemicals have served as means of coercion suppression and manipulation This book examines how chemical agents have been justified utilised and resisted as means of control Through attending to how when and for whom bodies become rendered as sites of intervention Chemical Bodies demonstrates the inter relations between geopolitical transformations and the technological spatial and social components of local events The chapters draw out some of the insidious ways in which chemical technologies are damaging and re open discussion regarding their justification role and regulation In doing so the contributors illustrate how certain instances of force gain prominence or fade into obscurity how some individuals speak and others get spoken for how definitions of what counts as success and failure are advanced and how the rights and wrongs of violence are contested
