

## **INTRODUCTION**

This manual has been developed to provide information and guidelines to all Subcontractors and Sub-subcontractors on the requirements and procedures for accident prevention, safety, reporting, and other responsibilities for safety associated with the Project Name. The sections of this manual are structured and organized so the Subcontractors or Sub-subcontractor's managers can easily reference a particular subject.

Section 1 contains the program objectives, definitions (of the major entities), abbreviations, and safety responsibilities of the entities on-site. You must know your responsibilities and how they interface with others.

Section 2 is a guideline for the Site-Specific Safety Programs developed for the Project Name. This section includes First Aid and Medical Services, Emergency Procedures, and Emergency and Non-Emergency Contacts.

Section 3 addresses Safety Management and the Project Safety Person. This section also has Safety Compliance guidelines outlining a disciplinary procedure you and your company will be subject to should your safety performance be deficient. We have incorporated the project goals, how these goals relate to your performance, and how we will monitor your performance

Section 4 outlines the on-site training and the criteria for such.

Section 5 outlines the reporting requirements for Accidents, Injuries, toolbox talks, and Safety Surveys. Timely reporting of all accidents and injuries, including immediate reporting to the site superintendent, must be observed. Late reporting will not be tolerated. Weekly tool box talks and inspection reports are required. The safety person will assist you if you have any comments or questions.

Sections 6 & 7 highlight site-specific safety standards and project safety rules. Sections 8, 9, 10 are the Construction Safety Standards to be used for this project.
