questions together which provides a window into so many aspects of the darker aspects of human behavior In a word shame Shame is a powerful and complex emotion capable of producing dramatic reactions from even the most mild mannered people While shame can be employed in positive ways such as teaching children good manners other types of shame can be devastating or even lethal However few people truly understand the role of shame in acts of bullying violence and discrimination In *Beyond Bullying Breaking the Cycle of Shame Bullying and Violence* veteran professor of social work Jonathan Fast deftly weaves together research from the fields of psychology sociology economics and history to create a single overarching theory of shame The book introduces the concept of weaponized shame a toxic and intentional attack on another person noting that weaponized shame is often at the heart of bullying situations With clear straightforward language Dr Fast traces the nuances of shame through several common types of bullying highlighting bullying based on sexuality gender and race Noting the pervasive presence of weaponized shame in American culture *Beyond Bullying* extends shame theory to acts of domestic violence racism school shootings and domestic terrorism The issues that cause bullying are not limited to the schoolyard but rather are responsible for horrific acts of violence across the nation Beyond mere theory the book provides concrete suggestions for healthy ways of dealing with shame including techniques for diffusing potentially harmful situations An invaluable resource for parents of bullied children *Beyond Bullying* will also appeal to teachers counselors and social workers
