Muslims and Islam in U.S. Education Liz Jackson, 2014-04-03 Winner of Philosophy of Education Society of Australasia PESA's inaugural PESA Book Awards in 2015 and The University of Hong Kong Research Output Prize for Education 2014 15 Muslims and Islam in U S Education explores the complex interface that exists between U S school curriculum teaching practice about religion in public schools societal and teacher attitudes toward Islam and Muslims and multiculturalism as a framework for meeting the needs of minority group students It presents multiculturalism as a concept that needs to be rethought and reformulated in the interest of creating a more democratic inclusive and informed society Islam is an under considered religion in American education due in part to the fact that Muslims represent a very small minority of the population today less than 1% However this group faces a crucial challenge of representation in United States society as a whole as well as in its schools Muslims in the United States are impacted by ignorance that news and opinion polls have demonstrated is widespread among the public in the last few decades U S citizens who do not have a balanced fair and accurate view of Islam can make a variety of decisions in the voting booth in job hiring and within their small scale but important personal networks and spheres of influence that make a very negative impact on Muslims in the United States This book presents new information that has implications for curricula religious education and multicultural education today examining the unique case of Islam in U S education over the last 20 years Chapters include Perspectives on Multicultural Education 9 11 the Media and the New Need to Know Islam and Muslims in Public Schools Blazing a Path for Intercultural Education This book is an essential resource for professors researchers and teachers of social studies particularly those involved with multicultural issues critical and sociocultural analysis of education and schools as well as interdisciplinary scholars and students in anthropology and education      **The 'Other' Students** Dina C. Maramba, Rick Bonus, 2012-12-01 Though the Filipino American population has increased numerically in many areas of the United States especially since the influx of professional immigrants in the wake of the 1965 Immigration Act their impact on schools and related educational institutions has rarely been documented and examined The Other Students Filipino Americans Education and Power is the first book of its kind to focus specifically on Filipino Americans in education Through a collection of historical and contemporary perspectives we fill a profound gap in the scholarship as we analyze the emerging presence of Filipino

Americans both as subjects and objects of study in education research and practice We highlight the argument that one cannot adequately and appropriately understand the complex histories cultures and contemporary conditions faced by Filipino Americans in education unless one grapples with the specificities of their colonial pasts and presents their unique migration and immigration patterns their differing racialization and processes of identity formations the connections between diaspora and community belonging and the various perspectives offered by ethnic group centered analysis to multicultural projects The historical methodological and theoretical approaches in this anthology will be of interest to scholars researchers and students in disciplines which include Education Ethnic Studies Asian American and Pacific Islander Studies Anthropology Sociology Political Science Urban Studies Public Policy and Public Health

**World Cultures** ,1993 **Christianity, Islam and Atheism** William Kilpatrick,2012-09-26 For many Americans the attack on the World Trade Center on September 11 2001 was the first time they had considered Islam Were the terrorists motivated by the true dictates of their religion or had they hijacked Islam as well as the planes in a political cause unrelated to the teachings of Muhammad Christianity Islam and Atheism argues that Islam is a religion of conquest and subjugation and that in spite of 9 11 and thousands of other terrorist attacks throughout the world many in the West still do not know or admit this because it conflicts with their multiculturalism and their belief in the equivalence of all cultures and religions To meet the challenge from Islam Christians need to know more about the important differences between Islam and Christianity yet many have been lulled into complacency by the misleading and largely unexamined assumption that the two religions are similar The time that Christians spend in pursuing common ground is time that Islamic activists will use to press their radical agenda In addition to challenging both the multicultural and common ground approaches William Kilpatrick also exposes the role played by atheists and secularists in advancing Islam Despite paying lip service to freedom radical secularists serve as enablers of radical Islam The civil liberties that the West enjoys are the fruit of Christian civilization Kilpatrick argues and only a reawakened Christianity can defend them against Islam s advance

**The Rule of Law and Governance in Indigenous Yoruba Society** John Ayotunde Isola Bewaji,2016-08-22 In The Rule of Law and Governance in Indigenous Yoruba Society John Ayotunde Isola Bewaji has two main goals The first is to provide an exploration of aspects of indigenous Yoruba philosophy of law The second is to relate this philosophy of law to the Yoruba indigenous traditions of governance with a view to appreciating the relevance of the Yoruba traditions of law and governance to contemporary African experiments with imported Western democracy in the 21st century This book is devoted to what can be described as a juridical forensic investigation of Nigeria s predicament of developmental deficit leading to gross and unconscionable impoverishment of large segments of the population in the midst of so much natural resources and abundant human capital using Yoruba indigenous legal traditions as reflective template Bewaji urges that Africa has to take seriously the necessity of obedience observance enforcement and operation of law as no respecter of persons groups affiliations and pedigrees as was in the case in the

societies founded by our ancestors rather than the present scenario whereby the highest bidder procures semblances of justice from a crooked system of common law which was never designed to be fair equitable and just to the disadvantaged in society
