Evangelicalism Richard Kyle, 2017-09-20 Most forms of religion are best understood in the context of their relationship with the surrounding culture This may be particularly true in the United States Certainly immigrant Catholicism became Americanized mainstream Protestantism accommodated itself to the modern world and Reform Judaism is at home in American society In *Evangelicalism* Richard Kyle explores paradoxical adjustments and transformations in the relationship between conservative Protestant Evangelicalism and contemporary American culture Evangelicals have resisted many aspects of the modern world but Kyle focuses on what he considers their romance with popular culture Kyle sees this as an Americanized Christianity rather than a Christian America but the two are so intertwined that it is difficult to discern the difference between them Instead in what has become a vicious self serving cycle Evangelicals have baptized and sanctified secular culture in order to be considered culturally relevant thus increasing their numbers and success within abundantly populous and populist driven American society In doing so Evangelicalism has become a middle class movement one that dominates America's culture and unabashedly populist Many Evangelicals view America as God's chosen nation thus sanctifying American culture consumerism and middle class values Kyle believes Evangelicals have served themselves well in consciously and deliberately adjusting their faith to popular culture Yet he also thinks Evangelicals may have compromised themselves and their future in the process so heavily borrowing from the popular culture that in many respects the Evangelical subculture has become secularism with a light gilding of Christianity If so he asks can Evangelicalism survive its own popularity and reaffirm its religious origins or will it assimilate and be absorbed into what was once known as the Great American Melting Pot of religions and cultures Will the Gospel of the American dream ultimately engulf and destroy the Gospel of Evangelical success in America This thoughtful and thought provoking volume will interest anyone concerned with the modern day success of the Evangelical movement in America and the aspirations and fate of its faithful

Political Economy, Race, and the Image of Nature in the United States, 1825-1878 Evan Robert Neely, 2024-05-01 *Political Economy Race and the Image of Nature in the United States 1825-1878* is an interdisciplinary work analyzing the historical origins of a dominant concept of Nature in the culture of the United States during the period of its expansion across the continent Chapters analyze the ways in which Nature became a discursive site where theories of race and belonging adaptation and environment and the uses of literary and pictorial representation were being renegotiated forming the basis for an ideal of the human and the nonhuman world that is still with us Through an interdisciplinary approach involving the fields of visual culture political economy histories of racial identity and ecocritical studies the book examines the work of

Elmi, Louis J. Gesualdi, Lisa Kuan, 2020-06-22 The Italian Americans A Multicultural View exemplifies a meaningful attempt to inform readers about the Italian Americans various experiences in the United States Unlike many works on the Italian American experience this unique text explains why popular negative notions of Italian American life are inaccurate Moreover this book provides useful information to help the reader become more cognizant of not only the Italian American experience but the ethnic American experience in general The eleven chapters of this book are an important beginning for the reader to become informed of the Italian American sociohistorical experiences including the oppression exploitation and discrimination in the United States past and present *A Study of Sociolinguistic Texts and Subtexts as Found in Five High School American Literature Anthologies* Mary Rose Harmon, 1993 **Acts of Narrative** Carol Jacobs, Henry Sussman, 2003 This outstanding collection brings together essays that reflect on the nature of narrative literary criticism and history from a variety of theoretical and disciplinary perspectives ranging from deconstruction psychoanalysis and trauma theory to narratology technology economics and aesthetics Acts of Narrative includes responses from renowned scholars across a wide range of disciplines philosopher Jacques Derrida the literary critic J Hillis Miller W J T Mitchell well known for his reflections on the visual world and Cathy Caruth one of the founders of the field of trauma theory These essays are brilliant in their readings of other texts but are also striking in the manner in which each becomes itself a narrative performance Moreover what starts out as an exercise in theorizing and reading moves more often than not into a meditation on social and political issues crucial for our own sense of ourselves
