Transitioning Children with Disabilities Antonio L. Ellis, 2017-09-13 This book is an authoritative volume of scholarship through qualitative and quantitative methodologies on postsecondary transition services for a diverse readership. The editor's intended audience is composed of students with disabilities, school administrators, special education coordinators, colleges and university faculty staff, and administrators among other scholars, practitioners, and advocates. Readers of this volume will be educated on the postsecondary transition process and the lifelong commitment of educators who guide students with disabilities through their rigorous yet rewarding journey. This book also can be used by student personnel administrators, employers, student retention coordinators, and workforce development professionals to improve the implementation of postsecondary transition services. Topics in this volume highlight areas that have critical implications for children and adolescents' preparation for adulthood. Contributors present potent research regarding various topics addressing P 16 students' needs and have been active practitioners in both areas: transition services and disabilities as defined under the Individuals with Disabilities Education Act (IDEA) of 2004. **Handbook of Test Development** Suzanne Lane, Mark R. Raymond, Thomas M. Haladyna, 2015-10-08 The second edition of the *Handbook of Test Development* provides graduate students and professionals with an up-to-date research-oriented guide to the latest developments in the field. The volume also includes expanded coverage of performance testing, validity, fairness, and numerous other topics. Edited by Suzanne Lane, Mark R. Raymond, and Thomas M. Haladyna, *The Handbook of Test Development*, 2nd edition, is based on the revised Standards for Educational and Psychological Testing and is appropriate for graduate courses and seminars that deal with test development and usage, professional testing services, and credentialing agencies, state and local boards of education, and academic libraries serving these groups. *Resources in Education*, 1998
