Committee on Education and the Workforce, 2014 *The Mantra of Efficiency* Jennifer Karns Alexander, 2008-03-03 Winner 2010 Edelstein Prize Society for the History of Technology Efficiency associated with individual discipline superior management and increased profits or productivity often counts as one of the highest virtues in Western culture But what does it mean exactly to be efficient How did this concept evolve from a means for evaluating simple machines to the mantra of progress and a prerequisite for success In this provocative and ambitious study Jennifer Karns Alexander explores the growing power of efficiency in the post industrial West Examining the ways the concept has appeared in modern history from a benign measure of the thermal economy of a machine to its widespread application to personal behaviors like chewing habits spending choices and shop floor movements to its controversial use as a measure of the business success of American slavery she argues that beneath efficiency s seemingly endless variety lies a common theme the pursuit of mastery through techniques of surveillance discipline and control Six historical case studies two from Britain one each from France and Germany and two from the United States illustrate the concept s fascinating development and provide context for the meanings of and uses for efficiency today and in the future Committee Meeting of Senate Education Committee New Jersey. Something Borrowed, Something Pink! Kristi J. Hebets, 2012-02 A true story about a teen mother s challenges and success with parenting and embracing the fact that it was all part of God s perfect plan This inspiring story will give courage and guidance to become the best parent you can be regardless of your age situation or complicated upbringing The love and faithfulness of God is present and alive in everyone of us even when we are blissfully unaware Kayla Nicole is living proof that anything is possible when you have a parent that is devoted to their child no matter what **Education Reform and the Concept of Good Teaching** Derek Gottlieb, 2014-08-27 In an effort to address the problems confronting the American education system the Obama administration has issued structural and systematic reforms such as Race to the Top These initiatives introduce new statistics and accountability systems to gauge what constitutes good teaching both from an

administrative standpoint and the perspective of teacher training programs This volume offers a direct critique of this approach concluding that it does not respond adequately to the issues of education reform but rather raises new problems and actively stymies progress The author argues that at the heart of the confusion lies a misguided and rationalistic view of teaching and learning He draws on the philosophical strategies of Ludwig Wittgenstein to break down the guiding assumptions of Race to the Top allowing both the positive and the negative aspects of the policies to be heard The author then proposes a different view of teaching and learning which considers how to effectively address the problems Race to the Top seeks to confront
