examples from Swedish public preschools the book focuses on essential areas of the Lean management model in particular bringing to life concepts relating to the care and education of children The book draws on international childcare policy and public reforms exploring the assignments that preschools are set and argues that separating the pedagogical and the organizational as suggested by proponents of management models is not possible This book considers Jamie Peck and Nik Theodore's work on fast policy and model power and analyzes the tensions between the easy to use and difficult to use in management models The model form of Lean's management model rendered it difficult to align with existing childcare policy pedagogical models and the organization of a preschool The book explores the utopian dimension of a modern project in pursuit of efficiency and speed in relation to the Lean model and the preschool teachers work by asking what are the wider societal implications of the Lean project in preschools Fast Childcare in Public Preschools will be of great interest to cultural anthropologists qualitative sociologists and political scientists and organizational researchers interested in the anthropology of policy

until the 1980s when his Selected Works were first published in Russian There has long been a need for a contemporary book on the scholarly treatment of perezhevanie emotions and subjectivity and as such this book revisits dominant representations of these concepts and then puts forward new ways of conceptualising and using them in empirical research The chapters cover a broad range of case studies where the concepts of perezhivanie emotions and imagination and subjective sense and subjective configuration are used to give new empirical and theoretical insights into the study of human development
