Meaning in the Media Alan Durant,2010-03-04 *Meaning in the Media* addresses the issue of how we should respond to competing claims about meaning put forward in confrontations between people or organisations in highly charged circumstances such as bitter public controversies and expensive legal disputes Alan Durant draws attention to the pervasiveness and significance of such meaning related disputes in the media investigating how their meaning dimension is best described and explained Through his analysis of deception distortion bias false advertising offensiveness and other kinds of communicative behaviour that trigger interpretive disputes Durant shows that we can understand both meaning and media better if we focus in new ways on moments in discourse when the apparently continuous flow of understanding and agreement breaks down This lively and contemporary volume will be invaluable to students and teachers of linguistics media studies journalism and law *Book 2 of a Silent Cry for My Children* Jeanie Breedwell,2016-04-30 It is about children missing One was found dead The other was told by her mom to pray and was alive *The American Federationist* ,1944 Includes separately pagged Junior union section *Diversifying Greek Tragedy on the Contemporary US Stage* Melinda Powers,2018-07-26 In its long history of performance and reception Greek drama has been interpreted and adapted in countless ways and forms in response to and as a reflection of the preoccupations and tensions of particular historical

moments This volume continues this tradition by investigating a cross section of theatrical productions on the contemporary American stage that have reimagined Greek tragedy in order to address the political and social concerns of minority communities Studying performance and its role in creating and reflecting social cultural and historical identity in contemporary America it draws on cutting edge research in the field to move discussion away from the interpretation of dramatic texts in isolation from their performance context and towards an analysis of the dynamic experience of live theatre The discussion focuses particularly on the ability of engaged performances to pose critical challenges to the long standing stereotypes that have contributed to the misrepresentation and marginalization of minority cultures However in the process it also uncovers the ways in which such performances can inadvertently reinforce the very stereotypes they aim to execute demonstrating that ancient drama can be a powerful and dangerous tool in the search for social justice *On Verbal/visual Representation* Martin Heusser,2005 The twenty one essays collected in this volume offer a broad range of critical views on the intricate interdependence between verbal and visual representation Drawing on recent research scholars from Europe America and Asia approach the topic from a host of different angles exploring topics such as popular visual cultures in Japan devotional graffiti in a Piedmontese chapel textual trompe l'oeil in Jaques Derrida's *Memoirs of the Blind* or the relationship between the landscape paintings of Albert Bierstadt and the representation of landscape in the texts of James Fenimore Cooper **National Library of Medicine Audiovisuals Catalog** National Library of Medicine (U.S.),1977
