relevance for the experience of centrist and centre left parties in other countries which too suffered a decline in the context of the upsurge of populist nationalism and right wing politics in the past few years Analysis of political change in India in the past decade affords insights into the processes of transformation and polarization that grounded the Congress party and centrist parties in other countries as well *Occupational Mobility in an Exiled Community* Professor Dr Madhu Rajput,2019-01-01 The book is an empirical research done by Prof Madhu Rajput on socio economic status of Tibetan women in exile Though the author has focused on Tibetan women at Dharamsala and Dehradun she takes readers to the era when Tibet was an independent nation narrating their livelihood and traditions It is a story of skillful adaptation they displayed in the face of drastically changed circumstances in exile to make their existence meaningful and contributory In early 1960s during conflict migration and resettlement it were the Tibetan women and children who suffered the most as out of their sheltered existence they became vulnerable to various forms of gender based exploitation As a result of flight trauma anxiety and hardships of beginning a life in exile most of them suffer from psychological disorders which affect their social and family lives In addition to many subjects discussed in the book the author puts an effort to understand the challenges specific to Tibetan women and children and create sensitization on the issue **ALIAS, Australia's Library, Information, and Archives Services: A-E** Harrison Bryan,1988
