The Eastern Cape Paper 2 Economics

John Reynolds

The Eastern Cape Paper 2 Economics:

Development Planning in South Africa John Reynolds, 2018-06-15 Celebrated as a beacon of democracy and reconciliation many people in South Africa continue to live in severe poverty particularly in the Eastern Cape Province Backed by the United Nations Development Programme the Eastern Cape's provincial government consequently launched an historically ambitious programme the Provincial Growth and Development Plan aimed at tackling the province's poverty unemployment and inequality over a ten year period in a radical policy overhaul Drawing on the author's first hand engagement with the planning process *Development Planning in South Africa* is an empirically rich study that utilises a strategic relational approach to explore the ways in which this unprecedented challenge was negotiated and eventually undermined by the South African state The first work of its kind the book provides an indispensable micro level study with profound implications for how state power is understood to be organised and expressed in state policy Relevant beyond South Africa to policy implementation in both developing and developed states globally the book is essential reading for students and scholars of government studies political economy development policy studies and social movements

Economic Papers, 1924 **Regional and Local Economic Development in South Africa** Etienne Louis Nel, 2019-07-23 First published in 1999 this volume responds to the recent application of Local Economic Development around the world and examines its impact in South Africa in the wake of the nation's recent political transition Etienne Louis Nel observes how the initiative is taking on a dual form of community led and authority led initiatives Nel explores the issue through areas including South Africa's space economy a case study of Stuttenheim and local economic development in East London *Agricultural Economics Literature* United States. Bureau of Agricultural Economics. Library, 1935 **The Oxford Companion to the Economics of South Africa** Haroon Borat, Alan Hirsch, Ravi Kanbur, Mthuli Ncube, 2014-11-27 In 1994 South Africa saw the end of apartheid The new era of political freedom was seen as the foundation for economic prosperity and inclusion The last two decades have seen mixed results Economic growth has been volatile While inequalities in public services have been reduced income inequality has increased and poverty has remained stagnant As the twentieth anniversary of the transition to democracy approaches in 2014 the economic policy debates in South Africa are in full flow They combine a stocktake of the various programs of the last two decades with a forward looking discussion of strategy in the face of an ever open but volatile global economy Underlying the discourse are basic and often unresolved differences on an appropriate strategy for an economy like South Africa with a strong natural resource base but with deeply entrenched inherited inequalities especially across race This volume contributes to the policy and analytical debate by pulling together perspectives on a range of issues micro macro sectoral country wide and global from leading economists working on South Africa Other than the requirement that it be analytical and not polemical the contributors were given freedom to put forward their particular perspective on their topic The economists invited are from within South Africa and from outside from

academia and the policy world from international and national level economic policy agencies The contributors include recognized world leaders in South African economic analysis as well as the very best of the younger crop of economists who are working on the study of South Africa the next generation of leaders in thought and policy

Agricultural Economics Literature ,1935 Bibliography of Agriculture ,1964 Tools for Spatial Economic Planning Gulelat Kebede,Paterson Gauntner,2025-09-30 Urbanization is a transformative force reshaping the economies and societies of developing countries today It has the potential to bring about powerful development dividends but the rapid expansion of cities in countries where resources are limited is a pressing policy challenge Guiding the evolving spatial and economic structure and getting policy right is an urgent and high stakes task This book bridges spatial and economic planning offering practical tools for both analysis and policymaking It explores seven national and subnational policy instruments such as National Development Plans city master plans and special economic zones detailing their purpose formulation key components and effectiveness Additionally it provides hands on guidance on a wide variety of analytical tools such as mapped overlays location quotients input output analysis multipliers metrics of inequality and segregation gravity models and scenario planning These tools can help identify spatial trends assess linkages and inform policy decisions With 26 case studies demonstrating real world applications this book serves as a resource for policymakers development practitioners and academics seeking to learn develop the field of knowledge and shape more effective spatial economic policies

Technology and Industrial Parks in Emerging Countries Andrés Rodríguez-Pose,Daniel Hardy,2014-06-16 Industrial and technology parks are commonly regarded as a policy panacea They tend to be considered as the ideal instrument to alleviate an assortment of institutional political

economic social and ultimately technological weaknesses and often form the centrepiece of development strategies Yet the real impact of industrial and technology parks especially in emerging countries is still poorly understood Focusing on examples from Latin America Asia Africa and the Middle East the book represents a first approach to understand the potential and reality of industrial and technology parks in emerging countries It is argued that although some parks have been successful in addressing a range of key problems including underdevelopment unemployment and a lack of investment the majority have failed to deliver rendering the promise of many parks little more than a pipedream *Financial inclusion* Munacinga C. Simatele, 2022-02-15 Financial inclusion has been noted as a key driver of poverty alleviation and growth Yet most of the scholarly work that exists lacks a comprehensive discussion of how the poor interact with financial services and the channels through which such services can affect their livelihoods This book offers researchers who focus on financial inclusion and African economies a one stop resource for understanding the channels of transmission for financial inclusion as well as an application of these channels through original country specific empirical papers The book provides a back to basics presentation of the transmission of financial services to growth and poverty This theoretical discussion is complemented by an empirical presentation of the various services used by the poor with a focus on Africa Case studies of financial inclusion in six African countries cover a broad range of topics most important to African countries and highlight the unique African setting These empirical papers provide important learning points Firstly hybrid financial institutions such as cooperative financial institutions and financial social entrepreneurs are the best way to increase financial inclusion in Africa They provide important vehicles to circumvent the restrictive and exclusive bank based financial markets typical of African economies Secondly digital finance is a potent tool for improving financial access and usage in Africa and its impact on poverty operates through both traditional and nontraditional financial instruments Thirdly investment in infrastructure which supports complementary markets is critical and is likely to have a greater effect on credit rationing than direct provision of credit to small businesses

Contemporary South Africa and the Political Economy of Regional Development

Methembe Mdlalose, Isaac Khambule, Nene Ernest Khalema, 2025-02-21 South Africa's struggle in balancing its domestic needs while playing a dynamic developmental role in the African region and global context exposes a complex web of relations shaped by its geostrategic location on the continent and the world and the staggering legacies of colonialism and apartheid As such understanding the complexities of the global economy and of South Africa's place in it is of great importance This book builds upon an existing body of literature which has demonstrated that while the post apartheid South African state has recast its nation building goals with advances having been made notably in the area of a stellar post apartheid constitution policy directives and democratic political integration economic integration and policy implementation presents a projection of captured interests where big business concerns are entrenched in the post apartheid state's apparent neo liberal turn The main focus of the book is to contextualise issues relating to three main trends in global

discourses on development which are significant for South Africa and indeed for the study of the political economy of regional development in the country from the prism of South Africa as a global capitalist state These trends include the impact of globalisation regionalisation and the marginalisation of South Africa and indeed the African continent in the global economy thus unpacking the possible role that South Africa might play in regional development This volume will be a valuable resource to academics researchers and students in the fields of regional studies economics and political theory as well as policymakers planners and local economic development practitioners *Harvard Economic Studies* ,1926
