*The English Reformation 1530 - 1570* W. J. Sheils, 2013-12-02 The changes brought about during the English Reformation clearly reflected the desire of the Crown government and landed classes to reduce the political power and landed wealth of the late medieval Church This book covers the background to the Reformation the processes which brought about these major changes and the impact on the clergy and the general population

**The English Reformation 1530 - 1570** W. J. Sheils, 2013-12-02 The changes brought about during the English Reformation clearly reflected the desire of the Crown government and landed classes to reduce the political power and landed wealth of the late medieval Church This book covers the background to the Reformation the processes which brought about these major changes and the impact on the clergy and the general population

*The Reformation in National Context* Robert Scribner, Roy Porter, Mikulas Teich, 1994-06-09 The collection of essays by prominent historians of the Reformation explores the experience of religious reform in national context discussing similarities and differences between the reform movements in a dozen different countries of sixteenth century Europe Each author provides an interpretative essay emphasising local peculiarities and national variants on the broader theme of the Reformation as a European phenomenon The individual essays thus emphasise the local preconditions and limitations which encountered the Reformation as it spread from Germany into most of the countries of western and central Europe Together they present a picture of the many sided nature of the Reformation as it grew up in each national context The book includes examples of countries where the Reformation was strikingly successful as well as those where it failed to make an impact A final comparative essay seeks to understand the different Reformations as variations on an overall theme This volume forms part of a sequence of collections of essays which began with *The Enlightenment in national context* 1981 and has continued with *Revolution in history* 1986 *Romanticism in national context* 1988 *Fin de siecle and its legacy* 1990 *The Renaissance in national context* 1991 *The Scientific Revolution in national context* 1992 and *The national question in Europe in historical context* 1993 The purpose of these and other envisaged collections is to bring together comparative national and interdisciplinary approaches to the history of great movements in the development of human thought and action

**The Last Generation of English Catholic Clergy** Tim Cooper, 1999 Traces the careers and fortunes of the last priests ordained before the Reformation A central paradox of the English reformation is that the call to the Catholic priesthood was never more eagerly answered than on the very eve of religious upheaval In this important new study based on the records of the third largest diocese in the country covering six counties of the midlands and north west Dr Cooper traces the careers of the pastoral clergy from their preparatory education through ordination and job hunting to the writing of their wills often in ripe old age and having served a single parish through the entirety of the main period of reform In this highly clericalised society in which ten new priests were ordained each year for every arising vacancy it was those priests without livings who were the main point of contact between the church and its people This clerical proletariat and indeed the majority of

parochial incumbents emerge as conscientious servants of their native communities distinguishable from their neighbours by virtue of their sacramental function rather than their social backgrounds and general concerns Throughout the book argues that the parish clergy whose services were in greater demand than ever before were remarkably well integrated into the communities they served and that popular anticlericalism as an explanatory factor of the English reformation is difficult to sustain Dr TIM COOPER has taught history at the universities of Sheffield Manchester and Hull The Reformation in Britain and Ireland Ian Hazlett, 2003 This book is a new and wide ranging introduction to the Reformation throughout the British Isles Full treatment is given to the fascinating and often very different but interrelated experiences in England Wales Scotland and Ireland This approach is unique Previous introductions have invariably concentrated on England with lesser sections on Wales and Scotland often ignoring Ireland altogether The book is more than a modern introduction survey and summary of the Reformation period Ian Hazlett provides fresh research and critical analysis which will be of considerable interest to a new generation of scholars and students The material is written and organized in a highly readable and accessible form Here is a well balanced introduction and resource for non specialists as well as scholars and students

**John Mirk's Festial** Judy Ann Ford, 2006 First full analysis of John Mirk's Festial of particular importance for the evidence it offers for the debate over medieval heresy and orthodoxy Marvellously perceptive and insightful FIONA SOMERSET Duke University Written with largely uneducated rural congregations in mind John Mirk's Festial became the most popular vernacular sermon collection of late medieval England yet until relatively recently it has been neglected by scholars despite the fact that the question of popular access to the Bible undoubtedly regarded as the preserve of learned culture along with the related issue of the relative authority of written text and tradition is at the heart of both late medieval heresy and the resultant reformulation of orthodoxy It offers in fact an unparalleled opportunity to analyze the religious ideology communicated by the orthodox church to the vast majority of people in fourteenth century England the ordinary country folk This book represents the first major examination of the Festial looking in particular at the issues of popular culture and piety the oral tradition biblical and secular authority and clerical power JUDY ANN FORD is Associate Professor in the History Department of Texas A M University Commerce Insurrection Susan Loughlin, 2016-04-04 Autumn 1536 Katherine of Aragon and Anne Boleyn are dead Henry VIII has married Jane Seymour and still awaits his longed for male heir Disaffected conservatives in England see an opportunity for a return to Rome and an end to religious experimentation but Thomas Cromwell has other ideas The Dissolution of the Monasteries has begun and the publication of the Lutheran influenced Ten Articles of the Anglican Church has followed The obstinate monarch enticed by monastic wealth is determined not to change course Fear and resentment is unleashed in northern England in the largest spontaneous uprising against a Tudor monarch the Pilgrimage of Grace in which 30 000 men take up arms against the king This book examines the evidence for that opposition and the abundant examples of religiously motivated dissent It also highlights the rhetoric reward and

retribution used by the Crown to enforce its policy and crush the opposition      *The Origins of French Absolutism, 1598-1661* Alan James, 2014-01-14 This controversial study takes the provocative line that the French monarchy was a complete success James turns the idea of royal absolutism on its head by redefining the French monarchy's success from 1598-1661 The Origins of French Absolutism 1598-1661 maintains that building blocks were not being laid by the so-called architects of absolutism but that by satisfying long-established traditional ambitions cardinal ministers Richelieu and Mazarin undoubtedly made the confident ambitious reign of the late century possible      *Parliamentary Reform in Britain, c. 1770-1918* Eric J. Evans, 2014-07-22 Covers the momentous reforms in the British electoral system during the period from the Great Reform Act of 1832 to 1918 when women were given the vote The study charts the series of Reform Acts right through the period involving rather more attention to those important changes in the 1880s which are often underplayed      **The Shaping of a Community** Beat A. Kümin, 2016-12-05 This book offers a new perspective to the current debate about popular religious attitudes in Tudor England laying particular emphasis on the social and secular dimensions of parish life The argument focuses on the role of the laity and especially on the office of churchwarden It assesses the rising levels of parish income the importance of the social context for fund-raising strategies and the growing expenditure on priests' voluntary activities and administrative duties The final part discusses the Reformation-related reduction in religious options and the intensifying trend towards oligarchical parish regimes and official local government responsibilities Wherever possible the English situation is put into sharper focus by comparisons with local ecclesiastical life on the Continent and appendices provide a detailed financial analysis for a large number of parishes      *The Collapse of the Soviet Union, 1985-1991* David R. Marples, 2016-09-17 Why did the Soviet Union collapse in 1991 The collapse of the Soviet Union has widely been seen as the result of the arms race and Cold War and the failure of the Soviet side to keep pace with new technology This book argues that the disintegration was mainly a result of two interrelated factors the rise of the Soviet national republics and the manipulation of the new Russian presidency by Boris Yeltsin in what became a direct power struggle between Yeltsin and the Soviet leader Gorbachev Written in a clear and accessible manner the book provides an explanation of how the national question came to dominate Soviet politics by 1990 1 analysis of the economic crisis that occurred in the late 1980s a chapter devoted to the year 1991 from the referendum to reform the Soviet Union to the unforeseen dissolution of the country by December a discussion of the personalities of and political confrontation between the two key statesmen Gorbachev and Yeltsin Also containing a Chronology Glossary and Who's Who of key figures The Collapse of the Soviet Union is essential reading for students of twentieth-century European history      *The First World War Peace Settlements, 1919-1925* Erik Goldstein, 2013-10-11 The First World War changed the face of Europe two empires the Austro-Hungarian Empire and the Ottoman Empire collapsed in its wake and as a result many of the boundaries of Europe were redrawn and new states were created The origins of many of the international crises in the late twentieth century can be traced back to decisions taken in

these critical years Yugoslavia being the most obvious example An understanding of the peace settlements is thus crucial for any student studying international history international relations which is what this book offers This book provides an accessible and concise introduction to this most important period of history *American Abolitionists* Stanley Harrold, 2014-09-25 This book the latest in the Seminar Studies in History series examines the movement to abolish slavery in the US from the origins of the movement in the eighteenth century through to the Civil War and the abolition of slavery in 1865 Books in this Seminar Studies in History series bridge the gap between textbook and specialist survey and consists of a brief Introduction and or Background to the subject valuable in bringing the reader up to speed on the area being examined followed by a substantial and authoritative section of Analysis focusing on the main themes and issues There is a succinct Assessment of the subject a generous selection of Documents and a detailed bibliography Stanley Harrold provides an accessible introduction to the subject synthesizing the enormous amount of literature on the topic *American Abolitionists* explores the roles of slaves and free blacks in the movement the importance of empathy among antislavery whites for the suffering slaves and the impact of abolitionism upon the sectional struggle between the North and the South Within a basic chronological framework the author also considers more general themes such as black abolitionists feminism and anti slavery violence For readers interested in American history **Exploring history 1400-1900** Rachel Gibbons, 2013-01-18 *Exploring history 1400 1900* An anthology of primary sources reaches out to the reader across an expanse of 500 years It offers a broad sweep of history in the light of three key themes consumers and producers beliefs and ideologies and state formation Spanning continents and genres the selection of documents illuminates the links between concurrent events in diverse places and illustrates the legacies of important social religious and political trends Previously unpublished accounts and newly translated material reveal new perspectives on both familiar and less well known events In capturing this spectrum of human activity and endeavour the book uniquely provides insights into the daily concerns and critical debates of the day and the opportunity to engage with primary sources as tools for the knowledge creation and critical evaluation It will be an essential companion to a wide range of courses in historical study and an engaging read for anyone interested in researching reviewing or relating more closely to a rich historical past **Scriptural Perspicuity in the Early English Reformation in Historical Theology** Richard M.
