Literature, Gender and Politics During the English Civil War Diane Purkiss,2005-07-14 In this innovative study Diane Purkiss illuminates the role of gender in the English Civil War by focusing on ideas of masculinity rather than on the role of women which has hitherto received more attention Historians have tended to emphasise a model of human action in the Civil War based on the idea of the human self as rational animal Purkiss reveals the irrational ideological forces governing the way seventeenth century writers understood the state the monarchy the battlefield and the epic hero in relation to contested contemporary ideas of masculinity She analyses the writings of Marvell Waller Herrick and the Caroline elegists as well as in

newsbooks and pamphlets and pays particular attention to Milton's complex responses to the dilemmas of male identity. This study will appeal to scholars of seventeenth century literature as well as those working in intellectual history and the history of gender.

**Class and Gender in Early English Literature** Britton J. Harwood, Gillian R. Overing, 1994-05-22 The essays focus on class and gender not only sheds new light on old texts but also stretches the boundaries of the critical modus operandi which is often applied to such literature. Women's Studies Network UK Association Newsletter. These dramatic new readings of Old and Middle English texts explore the rich theoretical territory at the intersection of class and gender and highlight the interplay of the critic methodology and the medieval text.

**Plural and Multiple Geographies of Modern and Contemporary Art in East-Central Europe** Caterina Preda, Magdalena Radomska, 2024-11-29 This edited volume proposes a theoretical reflection on the different artistic geographies of East Central Europe (ECE) from an interdisciplinary perspective found at the intersection of art history, art and politics and critical geography. Contributors argue that this multiplicity is a defining feature of the region. At the same time, chapters employ the concept of plural geographies and call for an equal geography based on solidarity and an equal distribution of capital which could allow plural geographies to exist and be described. The multiple geographies of ECE consider the perspective of local conditions and emphasize how this region was part of successive empires with an important ethnic diversity and changing borders giving it historical layers and multicultural characteristics. The book will be of interest to scholars working in art history, political studies, cultural studies and geography.

The contributions are in English or German. The seventeen contributions set out to both celebrate and critically examine the concepts of gender and sexuality in exile in a wide range of texts by well known and lesser known authors and throw light on many different aspects of gendered authorship and gendered relations.
