,2023-11-02 COVID wrought havoc on the world s economic systems Higher education did not escape the ravages brought on by the pandemic as institutions of higher education around the world faced major upheavals in their educational delivery systems Some institutions were prepared for the required transition to online learning Most were not Whether prepared or not educators rose to the challenge The innovativeness of educators met the challenges as digital learning replaced the face to face environment In fact some of the distance models proved so engaging that many students no longer desire a return to

the face to face model As with all transitions some things were lost while others were gained This book examines practice in the field as institutions struggled to face the worst global pandemic in the last century The book is organized into four sections on Perils and Promises The State of Online Education Goals and Challenges of Online Learning and Innovations in the Age of COVID It presents various perspectives from educators around the world to illustrate the struggles and triumphs of those facing new challenges and implementing new ideas to empower the educational process These discussions shed light on the impact of the pandemic and the future of higher education post COVID Higher education has been forever changed and higher education as it once was may never return While many questions arise the achievements in meeting and overcoming the pandemic illustrate the creativity and innovativeness of educators around the world who inspired future generations of learners to reach new heights of accomplishment even in the face of the pandemic *Let's Talk About Varsity*, 2009 Accessing Post-School Studies Venicia McGhie & Madge du Preez, 2017-12-01 Accessing Post School Studies A student's GPS to successful learning makes a valuable contribution to often problematic and pertinent South African higher education issues such as student access and success student learning student support and student engagement In this regard the authors draw on the works of higher education theorists such as Kuh Tinto Marton and Sij The book is primarily a helpful resource for South African learners in school students at universities life orientation teachers as well as parents of prospective university students It will especially assist students to adapt to the university environment Prof Victor N Teise Sol Plaatje University Kimberley South Africa The Oxford Handbook of the South African Economy Arkebe Oqubay, Fiona Tregenna, Imraan Valodia, 2021 This Handbook provides a detailed and wide ranging coverage of the key economic questions in South Africa concentrating on the more recent economic challenges facing the country *Inclusive Education in South African Further and Higher Education* Tsediso Michael Makoelle, Cina P. Mosito, 2025-05-26 A historical overview of the evolution of inclusive education alongside the emergence of concepts such as of equity and access highlighting how these ideas have evolved been enacted and practiced in the higher education institutions HEIs of South Africa since 2001 **Open Learning as a Means of Advancing Social Justice** Tabisa Mayisela, Shanali Govender, 2024-01-23 This volume investigates the uptake of open learning in South African Technical Vocational Education and Training TVET colleges and higher education institutions Comprised of 16 studies focused on activities at a range of colleges and universities across the country these chapters aim to promote a better understanding of open learning practices across the Post School Education and Training PSET sector including issues such as recognition of prior learning access for students with disabilities work integrated learning professional development novel student funding mechanisms leadership for open educational practices institutional culture student support blended and online learning flexible learning online assessment open educational resource development models and funding and micro credentials This collection of peer reviewed chapters contributes to understanding the ways in which South African PSET institutions and educators are interpreting open learning as a means of

advancing social justice It includes a historical and contemporary understanding of the economic cultural and political obstacles facing PSET drawing on Nancy Fraser s theory of social justice as participatory parity to better understand the ways in which open learning may address systemic social injustices in order to allow South African students and educators to thrive This volume emerges from research conducted by the Cases on Open Learning COOL project an initiative by the Department of Higher Education and Training in partnership with the Centre for Innovation in Learning and Teaching CILT at the University of Cape Town UCT in South Africa

Universities, Inclusive Development and Social Innovation

Claes Brundenius,Bo Göransson,José Manoel Carvalho de Mello,2016-10-25 This book examines the ways in which universities can play a crucial role in inclusive development social innovation and social entrepreneurship It aims to prove the importance of inclusive development and inclusive innovation on economic growth and demonstrate the ways in which universities can be pioneers in this area through initiatives in social responsibility and social innovation For example providing access to a university education without discrimination of race gender income status or other factors would help to diminish the increasing income differentials currently being experienced in many countries especially in the developing world The research and studies included in this book provide insight into possible actions that can be taken by universities and public and private shareholders in inclusive development social innovation social entrepreneurship and overall regional economic and social development Innovation is currently considered to be the most important and dynamic factor explaining growth and development At the same time the traditional view considering innovation as having to be commercialized at any price is being challenged Lately there has been growing interest in innovation in the public sector particularly with respect to social innovations designed to reduce income inequality To address these concepts constant exchange of ideas and information between research groups became necessary UniDev Universities in Development the Evolving Role of Academic Institutions in Innovation Systems and Development is an international research group with researchers in twelve countries interested in the role of universities in development This book features the results of research performed by eleven research groups from UniDev country communities presenting in depth and comparative case studies from universities around the world including Latin America Northern and Eastern Europe and sub Saharan Africa This title will be of interest to students academics researchers and policy makers interested in the role of universities in development social innovation and social entrepreneurship

Rural Transitions to Higher Education in South Africa

Sue Timmis,Thea de Wet,Kibashini Naidoo,Sheila Trahar,Lisa Lucas,Emmanuel Mfanafuthi Mgwashu,Patricia Muhuro,Gina Wisker,2021-09-14 This unique and timely book focuses on research conducted into the experiences of students from rural backgrounds in South Africa foregrounding decolonial perspectives on their negotiation of access and transitions to higher education This book highlights not only the challenges of coming from a rural background against the historical backdrop of apartheid and ongoing colonialism but also shows the immense assets that students from rural areas bring into higher education Through detailed

narratives created by student co researchers the book charts early experiences in rural communities negotiations of transitions to university and in many cases to urban life and students subsequent journeys through higher education spaces and curricula The book will be of significant interest and value to those engaged in rurality research across diverse settings those interested in the South African higher education context and higher education more widely Its innovative participatory methodology will be invaluable to researchers seeking to conduct collaborative research that draws on decolonising approaches

Democracy and Decency Paul R. Carr,P. L. Thomas,Brad J. Porfilio,Julie A. Gorlewski,2016-02-01 Democracy can mean a range of concepts covering everything from freedoms rights elections governments processes philosophies and a panoply of abstract and concrete notions that can be mediated by power positionality culture time and space Democracy can also be translated into brute force hegemony docility compliance and conformity as in wars will be decided on the basis of the needs of elites or major decisions about spending finite resources will be the domain of the few over the masses or people will be divided along the lines of race ethnicity class religion etc because it is advantageous for maintaining exploitative political systems in place to do so Often these frameworks are developed and reified based on the notion that elections give the right to societies or segments of societies to install regimes institutions and operating systems that are then supposedly legitimated and rendered infinitely just because formal power resides in the hands of those dominating forces This book is interested in advancing a critical analysis of the hegemonic paradigm described above one that seeks higher levels of political literacy and consciousness and one that makes the connection with education What does education have to do with democracy How does education shape influence impinge on impact negate facilitate and or change the context contours and realities of democracy How can we teach for and about democracy to alter and transform the essence of what democracy is and importantly what it should be This book advances the notion of decency in relation to democracy and is underpinned by an analysis of meaningful critically engaged education Is it enough to be kind nice generous and hopeful when we can also see signs of rampant entrenched and debilitating racism sexism poverty violence injustice war and other social inequalities If democracy is intended to be a legitimating force for good how does education inform democracy What types of knowledge experience analysis and being are helpful to bring about newer more meaningful and socially just forms of democracy Throughout some twenty chapters from a range of international scholars this book includes three sections Constructing Meanings for Democracy and Decency Justice for All as Praxis and Social Justice in Action for Democracy Decency and Diversity

International Perspectives The underlying thread that is interwoven through the texts is a critical reappraisal of normative hegemonic interpretations of how power is infused into the educational realm and importantly how democracy can be re situated and re formulated so as to more meaningfully engage society and education
