I wouldn't stand there and give you a photography lecture. In real life, I'd just say, 'Put on your zoom lens, set your f-stop to f/2.8, focus on the flower and fire away.' That's what this book is all about: you and I out shooting where I answer questions, give you advice and share the secrets I've learned just like I would with a friend without all the technical explanations and techie photo speak. This isn't a book of theory full of confusing jargon and detailed concepts. This is a book on which button to push, which setting to use and when to use it. With over 200 of the most closely guarded photographic tricks of the trade, this book gets you shooting dramatically better looking sharper more colorful more professional looking photos every time.
