The Dore Lectures on Mental Science Thomas Troward, **A Comprehensive Summary and Analysis of The Dore Lectures on Mental Science** Thomas Troward, 101-01-01 The Dore Lectures on Mental Science by Thomas Troward is a collection of addresses delivered at the Dore Gallery in London focusing on the interplay between universal law and individual intelligence The lectures aim to guide readers in understanding and applying universal laws to achieve desired outcomes by consciously creating specific conditions Troward emphasizes the importance of studying universal law and practically fitting oneself to utilize it suggesting a dual approach to personal development **The Doré Lectures** Thomas Troward, 1909 **The Dore Lectures on Mental Science - The Original Classic Edition from 1909** Thomas Troward, 2018-11-23 The Dore Lectures On Mental Science Thomas Troward First published in 1909 Though the laws of the universe can never be broken they can be made to work under special conditions which will produce results that could not be produced under the conditions spontaneously provided by nature This is a simple scientific principle and it shows us the place which is occupied by the personal factor that namely of an intelligence which sees beyond the present limited manifestation of the Law into its real essence and which thus constitutes the instrumentality by which the infinite possibilities of the Law can be evoked into forms of power usefulness and beauty The Spirit is that which gives life and movement to anything in fact it is that which causes it to exist at all The thought of the author the impression of the painter the feeling of the musician is that without which their works could never have come into being and so it is only as we enter into the IDEA which gives rise to the work that we can derive all the enjoyment and benefit from it which it is able to bestow If we cannot enter into the Spirit of it the book the picture the music are meaningless to us to appreciate them we must share the mental attitude of their creator This is a universal principle if we do not enter into the Spirit of a thing it is dead so far as we are concerned but if we do enter into it we reproduce in ourselves the same quality of life which called that thing into existence New Thought then is not the name of a particular sect but is the essential factor by which our own future development is to be carried on and its essence consists in seeing the relation of things in a New Order **The Edinburgh and Dore Lectures on Mental Science** Thomas Troward, 2007-12-01 The early New Age philosophy of New Thought which was wildly popular at the turn of the 20th century owes much of its emphasis on the concept of mind over matter to the works of Thomas Troward In this two in one volume which brings together two of Troward's celebrated books on mental science the author who was renowned for presenting difficult ideas with clarity and enthusiasm discusses the higher mode of intelligence that controls the lower the unity of the spirit the subjective and objective minds the law of growth intuition and the will the subconscious mind individuality the creative power of thought and much more First published in 1909 Troward's writings remain of immense interest to anyone interested in personal spiritual development English judge philosopher and painter THOMAS TROWARD 1847 1916 lived most of his life in India in the service of the imperial monarchy Among his publications
