Entrepreneurial Middle Class Richard Scase, 1982 *Entrepreneurship in Europe (Routledge Revivals)* Robert Goffee, Richard Scase, 2015-06-11 The changing character of the economies in Eastern and Western Europe are leading more people to start their own businesses. This volume first published in 1987 highlights the trends developing over the closing decades of the twentieth century. Although business start up requires financial and marketing skills, it also demands important psychological and sociological inputs. On the basis of detailed accounts of the relevant social processes, this volume describes the varied experiences of entrepreneurship as they are emerging among various groups in both Eastern and Western Europe, including the unemployed, women, ethnic minorities, and others. This book will be of interest to students of business studies and sociology. **Defendants in the Criminal Process (Routledge Revivals)** A. E. Bottoms, J. D.

McClea, 2013-10-14 First published in 1976, this book examines the practical workings of the English criminal court system, focusing on the defendant's experiences of the system and the decisions he takes as he passes through it. Indeed, the defendant in a criminal case is in a unique position to experience the whole criminal process from the first approaches of the investigating policeman to conviction, sentence, and possible appeal. *Defendants in the Criminal Process* is based upon the close observation of criminal cases and on interviews with defendants. The authors raise several issues and questions to be addressed by those involved in the administration of justice, whether as court administrators, judges, magistrates, or lawyers. They also discuss issues of special importance for academics and others concerned with the explanation of the court process.

Critical Perspectives on Entrepreneurship Caroline Essers, Pascal Dey, Deirdre Tedmanson, Karen Verduyn, 2017-02-17 Entrepreneurship is largely considered to be a positive force driving venture creation and economic growth. *Critical Perspectives on Entrepreneurship* questions the accepted norms and dominant assumptions of scholarship on the matter and reveals how they can actually obscure important questions of identity, ideology, and inequality. The book's distinguished authors and editors explore how entrepreneurship study can privilege certain forms of economic action whilst labelling other more collective forms of organization and exchange as problematic. Demystifying the archetypal vision of the white male entrepreneur, this book gives voice to other entrepreneurial subjectivities and engages with the tensions, paradoxes, and ambiguities at the heart of the topic. This challenging collection seeks to further the momentum for alternate analyses of the field and to promote the growing voice of critical entrepreneurship studies. It is a useful tool for researchers, advanced students, and policy makers. *The Oxford Handbook of the Eighteenth-Century Novel* J. A. Downie, 2016-07-21 Although the

**Making Democracy Safe for Business** Robert Kubinec,2023-07-06 Businesses in the Middle East and North Africa have failed to bring sustainable development despite decades of investment from the private and public sectors Yet we still know little about why the Arab Uprisings failed to usher in more transparent government that could break this enduring cycle of corruption and mismanagement Examining posttransition politics in Egypt and Tunisia Kubinec employs interviews and quantitative surveys to map out the corrupting influence of businesses on politics He argues that businesses must respond to changes in how perks and privileges are distributed after political transitions either by forming political coalitions or creating new informal connections to emerging politicians Employing detailed case studies and original experiments Making Democracy Safe for Business advances our empirical understanding of the study of the durability of corruption in general and the dismal results of the Arab Uprisings in particular **Guaranteed Pure** Timothy Gloege,2015-04-27 American

evangelicalism has long walked hand in hand with modern consumer capitalism Timothy Gloege shows us why through an engaging story about God and big business at the Moody Bible Institute Founded in Chicago by shoe salesman turned

revivalist Dwight Lyman Moody in 1889 the institute became a center of fundamentalism under the guidance of the innovative promoter and president of Quaker Oats Henry Crowell Gloege explores the framework for understanding humanity shared by these business and evangelical leaders whose perspectives clearly differed from those underlying modern scientific theories At the core of their corporate evangelical framework was a modern individualism understood primarily in terms of economic relations Conservative evangelicalism and modern business grew symbiotically transforming the ways that Americans worshipped worked and consumed Gilded Age evangelicals initially understood themselves primarily as new Christian workers employees of God guided by their divine contract the Bible But when these ideas were put to revolutionary ends by Populists corporate evangelicals reimagined themselves as savvy religious consumers and reformulated their beliefs Their consumer oriented orthodoxy displaced traditional creeds and undermined denominational authority forever altering the American religious landscape Guaranteed pure of both liberal theology and Populist excesses this was a new form of old time religion not simply compatible with modern consumer capitalism but uniquely dependent on it

**Beauty and Business** Philip Scranton, 2014-03-05 Beauty seems simple we know it when we see it But of course our ideas about what is attractive are influenced by a broad range of social and economic factors and in Beauty and Business leading historians set out to provide this important cultural context How have retailers shaped popular consciousness about beauty And how in turn have cultural assumptions influenced the commodification of beauty The contributors here look to particular examples in order to address these questions turning their attention to topics ranging from the social role of the African American hair salon and the sexual dynamics of bathing suits and shirtcollars to the deeper meanings of corsets and what the Avon lady tells us about changing American values As a whole these essays force us to reckon with the ways that beauty has been made bought and sold in modern America

**Moral Visions and Material Ambitions** A. Kristen Foster, 2004-01-01 No single vision for the future of America existed after the Revolution In light of social and economic changes America's scope shifted from community mindedness the very heart of the republican ideal to economic individualism In Moral Visions and Material Ambitions A Kristen Foster describes how eager young entrepreneurs in Philadelphia manipulated America's moral vision of a classical republic to facilitate their own material ambitions fostered by the free market economy that arose between 1776 and 1836 As market developments changed economic relationships in the city men and women used the Revolution's republican language to help explain what was happening to them and in the process they helped redefine class structure in Philadelphia This study explores the ways Philadelphians used the Revolution and its powerful language of liberty and equality to impose meaning on their lives as an expanding market irreversibly changed social and economic relationships in their city and eventually the rest of the country
