The Evolution Of Theology An Anthropological Study:

The Evolution of Theology Thomas Henry Huxley, 2013-12 I conceive that the origin the growth the decline and the fall of those speculations respecting the existence the powers and the dispositions of beings analogous to men but more or less devoid of corporeal qualities which may be broadly included under the head of theology are phenomena the study of which legitimately falls within the province of the anthropologist And it is purely as a question of anthropology a department of biology to which at various times I have given a good deal of attention that I propose to treat of the evolution of theology in the following pages With theology as a code of dogmas which are to be believed or at any rate repeated under penalty of present or future punishment or as a storehouse of anaesthetics for those who find the pains of life too hard to bear I have nothing to do and so far as it may be possible I shall avoid the expression of any opinion as to the objective truth or falsehood of the systems of theological speculation of which I may find occasion to speak From my present point of view theology is regarded as a natural product of the operations of the human mind under the conditions of its existence just as any other branch of science or the arts of architecture or music or painting are such products Like them theology has a history

Evolution of Theology: an Anthropological Study Thomas Henry Huxley, 2001 *The Evolution of Theology* Thomas Henry Huxley, 2016-05-29 I conceive that the origin the growth the decline and the fall of those speculations respecting the existence the powers and the dispositions of beings analogous to men but more or less devoid of corporeal qualities which may be broadly included under the head of theology are phenomena the study of which legitimately falls within the province of the anthropologist And it is purely as a question of anthropology a department of biology to which at various times I have given a good deal of attention that I propose to treat of the evolution of theology in the following pages *The Evolution of Theology* Thomas Henry Huxley, 2015-04-22 The Evolution of Theology from Thomas Henry Huxley English biologist 1825 1895 **The Evolution of Theology** Thomas Henry Huxley, 2016-09-29 Excerpt from The Evolution of Theology An Anthropological Study Just so Saul strips off his clothes prophesies before Samuel and lies down naked all that day and night About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The Evolution of Theology: an Anthropological Study Thomas Huxley, 2013-05-08 With theology as a code of dogmas which are to be believed or at any rate repeated under penalty of present or future punishment or as a storehouse of anaesthetics for those who find the pains of life too hard to bear I have nothing to do and so far as it may be possible I shall avoid the expression of any opinion as to the objective truth or falsehood of the systems of theological

speculation of which I may find occasion to speak From my present point of view theology is regarded as a natural product of the operations of the human mind under the conditions of its existence just as any other branch of science or the arts of architecture or music or painting are such products Like them theology has a history Like them also it is to be met with in certain simple and rudimentary forms and these can be connected by a multitude of gradations which exist or have existed among people of various ages and races with the most highly developed theologies of past and present times It is not my object to interfere even in the slightest degree with beliefs which anybody holds sacred or to alter the conviction of any one who is of opinion that in dealing with theology we ought to be guided by considerations different from those which would be thought appropriate if the problem lay in the province of chemistry or of mineralogy And if people of these ways of thinking choose to read beyond the present paragraph the responsibility for meeting with anything they may dislike rests with them and not with me
