Summary of Michael Howard's The First World War Everest Media,2022-04-09T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The Great War of 1914 18 was a world war and it was not the first European powers had been fighting each other all over the globe for the previous 300 years It began as a purely European conflict but its course was so terrible and its consequences so catastrophic because of a combination of military technology and the culture of the peoples who fought it 2 The balance of power in Europe had changed dramatically by the end of the nineteenth century The most powerful country was the German Empire created by the Kingdom of Prussia in 1871 after its victorious wars against Austria and France 3 By the beginning of the twentieth century Britain had already become a fully urbanized and industrialized nation The landed aristocracy remained socially dominant but the last vestiges of political power were being wrested from them by a House of Commons in which the two major parties competed for the votes of the middle classes 4 Between 1689 and 1815 Britain had been the world s major power but after 1815 France became the rival that she had been before the Revolution France remained both wealthy and culturally dominant but her domestic politics were highly volatile

Michael Costa: England's First Conductor John Goulden,2016-04-22 Among the major changes that swept through the music industry during the mid nineteenth century one that has received little attention is how musical performances were managed and directed Yet this was arguably the most radical change of all from a loose control shared between the violin leader musical director and maestro al cembalo to a system of tight and unified control under a professional conductor manager This process brought with it not only baton conducting in its modern form but also higher standards of training and discipline a new orchestral lay out and a more focused rehearsal regime The resulting rise in standards of performance was arguably the greatest achievement of English music in the otherwise rather barren mid Victorian period The key figure in this process was Michael Costa who built for himself unprecedented contractual powers and used his awesome personal authority to impose reform on the three main institutions of mid Victorian music the opera houses the Philharmonic and the Sacred Harmonic Society He was a central figure in the battles between the two rival opera

houses between the Philharmonic and the New Philharmonic and between the venerable Ancient Concerts and the mass festival events of the Sacred Harmonic Society Costa s uniquely powerful position in the operatic symphonic and choral world and the rapidity with which he was forgotten after his death provide a fascinating insight into the politics and changing aesthetics of the Victorian musical world **The Complete Works of Michael Drayton, Now First Collected** Michael Drayton, Richard Hooper, 2024-06-02 Reprint of the original first published in 1876 **Michael Chekhov Technique in the Twenty-First Century** Cass Fleming, Tom Cornford, 2020-10-15 The culmination of an innovative practice research project Michael Chekhov in the Twenty First Century New Pathways draws on historical writings and archival materials to investigate how Chekhov s technique can be used across the disciplines of contemporary performance and applied practice In contrast to the narrow actor training only analysis that dominated 20th century explorations of the technique authors Cass Fleming and Tom Cornford along with contributors Caoimhe McAvinchey Roanna Mitchell Daron Oram and Sin ad Rushe focus on devising directing and collective creation dramaturgy and collaborative playwriting scenography voice movement and dance as well as socially engaged and therapeutic practices all of which are at the forefront of international theatre making The book collectively offers a thorough and fascinating investigation into new uses of Michael Chekhov s technique providing practical strategies and principles alongside theoretical discussion Chicago's First Crime King: Michael Cassius McDonald Kelly Pucci, 2019 Michael Cassius McDonald arrived in Chicago as a teenage scam artist who quickly sketched a blueprint for running the city through its criminal underworld Chicago s original mob boss he procured presidential pardons stuffed mayoral ballot boxes and operated the town s plushiest gambling parlor But he was also a philanthropist who befriended Clarence Darrow employed Theodore Dreiser promoted the World s Fair and funded the Lake Street L His scandalous private life mirrored the truth of his career with more than one marriage mired in a love triangle and a murder trial Kelly Pucci charts the rise of Chicago s first kingpin Provided by publisher *European Powers in the First World War* Spencer Tucker, 2018-12-07 First published in 1996 The First World War was the single most important event of the twentieth century This volume concentrates on non U S aspects of the conflict Organized alphabetically its more than 600 detailed entries offer information and insight on such subjects as the causes of the conflict major battles and campaigns weapons systems including military aviation chemical warfare the submarine and the tank and the terms of the peace Some 350 biographies provide information on the roles played in the conflict by generals admirals and civilian leaders There are also biographies of individuals who were shaped by the war such as Charles De Gaulle Adolf Hitler Benito Mussolini and Joseph Stalin essays on each of the countries involved in the conflict new appraisals of such subjects as military medicine and artillery tactics and essays on such diverse subjects as art literature and music in the war Each entry has references for additional reading and a subject index provides easy access The volume is an excellent reference source for scholar and neophyte alike *Heads of Families at the First Census of the United States Taken in the Year 1790* United States.
