Russia in World History Choi Chatterjee, 2022-01-27 *Russia in World History* uses a comparative framework to understand Russian history in a global context. The book challenges the idea of Russia as an outlier of European civilization by examining select themes in modern Russian history alongside cases drawn from the British Empire. Choi Chatterjee analyzes the concepts of nation and empire, selfhood and subjectivity, socialism and capitalism, and revolution and the world order in the 19th, 20th, and 21st centuries. In doing so, she rethinks many historical narratives that bluntly posit a liberal West against a repressive authoritarian Russia. Instead, Chatterjee argues for a wider perspective which reveals that imperial practices relating to the appropriation of human and natural resources were shared across European empires, both East and West. Incorporating the stories of famous thinkers such as Leo Tolstoy, Emma Goldman, Wangari Maathai, and Arundhati Roy among others, this unique interpretation of modern Russia is knitted together from the varied lives and experiences of those individuals who challenged the status quo and promoted a different way of thinking. This is a ground-breaking book with big and provocative ideas about the history of the modern world and will be vital reading for students of both modern Russian and world history.

The Human Journey Kevin Reilly, 2018-05-04 *The Human Journey* offers a truly concise yet satisfyingly full history of the world from ancient times to the present. The book's scope, as the title implies, is the whole story of humanity in planetary context. Its themes include not only the great questions of the humanities: nature versus nurture, the history and meaning of human variation, the sources of wealth and causes of revolution, but also the major transformations in human history: agriculture, cities, iron writing, universal religions, global trade, industrialization, popular government, justice and equality. In each conceptually rich chapter, Kevin Reilly concentrates on a single important period and theme, sustaining a focused narrative and analytical perspective. Free of either a confined limiting focus or a mandatory laundry list of topics, this book begins with our most important questions and searches all of our past for answers. Well grounded in the latest scholarship, this is not a fill-in-the-blanks text, but world history in a grand humanistic tradition. An instructor's manual includes questions for classroom discussion, substance exam questions, evaluative questions, critical thinking questions, and multiple choice questions, also available in a test bank format.
