Canada's Residential Schools: The History, Part 1, Origins to 1939 Commission de vérité et réconciliation du Canada, 2016-01-01 Between 1867 and 2000 the Canadian government sent over 150 000 Aboriginal children to residential schools across the country Government officials and missionaries agreed that in order to civilize and Christianize Aboriginal children it was necessary to separate them from their parents and their home communities For children life in these schools was lonely and alien Discipline was harsh and daily life was highly regimented Aboriginal languages and cultures were denigrated and suppressed Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self sustaining Child neglect was institutionalized and the lack of supervision created situations where students were prey to sexual and physical abusers Legal action by the schools former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008 The product of over six years of research the Commission s final report outlines the history and legacy of the schools and charts a pathway towards reconciliation Canada s Residential Schools The History Part 1 Origins to 1939 places Canada s residential school system in the historical context of European campaigns to colonize and convert Indigenous people throughout the world In post Confederation Canada the government adopted what amounted to a policy of cultural genocide suppressing spiritual practices disrupting traditional economies and imposing new forms of government Residential schooling quickly became a central element in this policy The destructive intent of the schools was compounded by chronic underfunding and ongoing conflict between the federal government and the church missionary societies that had been given responsibility for their day to day operation A failure of leadership and resources meant that the schools failed to control the tuberculosis crisis that gripped the schools for much of this period Alarmed by high death rates Aboriginal parents often refused to send their children to the schools leading the government adopt ever more coercive attendance regulations While parents became subject to ever more punitive regulations the government did little to regulate discipline diet fire safety or sanitation at the schools By the period s end the government was presiding over a nation wide series of firetraps that had no clear educational goals and were economically dependent on the unpaid labour of underfed and often sickly children **World History** Elisabeth Gaynor Ellis, Anthony Esler, 2014 **Catalog of Copyright Entries. Morris, 2015-07-01 What virtues are necessary for democracy to succeed This book turns to John Dewey and Reinhold Niebuhr two of America s most influential

theorists of democracy to answer this question Dewey and Niebuhr both implied although for very different reasons that humility and mutuality are important virtues for the success of people rule Not only do these virtues allow people to participate well in their own governance they also equip us to meet challenges to democracy generated by free market economic policy and practices Ironically though Dewey and Niebuhr quarreled with each other for twenty years and missed the opportunity to achieve political consensus In their discourse with each other they failed to become one out of many a task that is distilled in the democratic rallying cry e pluribus unum This failure itself reflects a deficiency in democratic virtue Thus exploring the Dewey Niebuhr debate with attention to their discursive failures reveals the importance of a third virtue democratic tolerance If democracy is to succeed we must cultivate a deeper hospitality toward difference than Dewey and Niebuhr were able to extend to each other      The European Miracle E. L. Jones,1987-08-31 Why did modern states and economies develop first in the peripheral and late coming culture of Europe This historical puzzle looms behind every study of industrialization and economic development In his analytical and comparative work Eric Jones sees the economic condition forming where natural environments and political systems meet Europe s economic rise is explained as a favoured interaction between them contrasting with the frustrating pattern of their interplay in the Ottoman empire India and China For the second edition Professor Jones has added a new introduction and an updated bibliographical guide      The European Miracle Eric Lionel Jones,2003-08-04 Why modern states and economies developed in Europe first and later in India and China
