Preparing for the Psychological Consequences of Terrorism, 2003 *Catastrophic Disasters: Federal Efforts Help States Prepare for and Respond to Psychological Consequences, but FEMA's Crisis Counseling Program Needs Improvements*, The Psychology of Counter-Terrorism Andrew

Silke, 2010-10-26 This work firstly aims to provide balanced and objective insight into the psychology of terrorists what their motivations are what keeps them involved in terrorist groups and what eventually forces most to end their active involvement in terrorism Secondly the contributors focus on the challenging issue of how to respond to terrorism These chapters provide information for those concerned with short term tactical problems e g interviewing as well as those looking towards the more

long term strategic questions of bringing an entire terrorist campaign to an end Ultimately the individuals involved in terrorism require a more complex response from society than simply a quest for their apprehension Believing inaccurate and misleading characterizations leads inevitably to damaging policies and deficient outcomes with campaigns of violence being needlessly prolonged It is from this perspective that the concern arises with how researchers and the policy makers guided by them perceive the psychology of terrorists and of terrorism

Best Practices in Professional Learning and Teacher Preparation National Assoc For Gifted Children, Christine L. Weber, 2021-09-03 Several states offer additional teacher preparation programs by providing either an endorsement or certification in the field but these are often pursued by teachers specifically enrolled in gifted coursework rather than in general education programs Practitioners and researchers agree that time and energy should be spent on training teachers in how to address the needs of gifted and talented students both within the regular classroom and in specialized programs This three book series acknowledges this need and provides specific strategies for professional development in a variety of settings using various methods Drawing on both literature in

the field and research based best practices in professional learning this series provides the reader with a foundation for designing and implementing effective professional development experiences for educators working with gifted learners This volume acknowledges specific challenges facing both practitioners and their students The authors present strategies and helpful resources related to several special populations and topics unique to the field such as twice exceptional learners underachieving gifted students the underrepresentation of minorities acceleration options and assisting educators to work with parents A service publication of the National Association for Gifted Children Washington DC This designation indicates that this book has been jointly developed with NAGC and that this book passes the highest standards of scholarship research and practice

Understanding Psychological Preparation for Sport Lew Hardy, Graham Jones, Daniel Gould, 2018-03-05 This book is designed to advance both theory and practice in the psychological preparation of high level sports performers The authors integrate the relevant qualitative and quantitative research literatures with practical knowledge gained via their own personal experience of working with elite athletes Seven aspects of psychological preparation are considered basic psychological skills self confidence motivation arousal and activation stress and anxiety concentration and coping with adversity Each discussion ends with a summary of the implications for future research and best practice Elite performers from around the world share their techniques for mentally preparing for competition The authors then explore the links between the practices that these athletes use and theories which underlie psychological preparation for performance This book develops a model of psychological preparation for elite sports performers incorporating two unique features the research to practice orientation which is taken to preparation for high level sports performance and a global perspective using evidence derived from North American European Australian and other research literatures in both general and sport psychology This is the first book of its kind and should be a valuable resource for sport psychologists students and professionals with an interest in sport or high level performance
