The Elephant In The Classroom:

The Elephant in the Classroom Jo Boaler, 2015-09-01 Following the progress of pupils at various schools and into adult life Jo Boaler outlines the crisis in maths education and proposes ways to motivate pupils about the subject She offers concrete solutions including classroom approaches strategies for pupils advice for parents and ways that parents can work with teachers

The Elephant in the Classroom Stumpf, 2014-11-04 So the other day I was talking with Ashley toward the end of class and mentioned she'd been absent a lot so I asked if she had been ill She said No We've been getting the place ready for my parents They're coming home Really I was a bit puzzled Yeah she said I pick dad up from prison on Monday and mom on Wednesday When a kid walks into class he or she is carrying baggage This is the reality The most important thing for teachers to teach kids is that learning is fun and that they can do it If they don't learn this it doesn't matter what else is taught Someone Else's Problem just walked in your classroom With apologies to Douglas Adams's *The Hitchhiker's Guide to the Galaxy* They don't cover this kind of thing in education classes in college and they also don't tell you about students coming to school hungry for food or love To assume that your job as a teacher is just to teach subject matter is like a blind man describing an elephant **The Elephant in the Classroom** was walking the halls of Columbine

The Elephant in the Classroom Jo Boaler, 2015-09-01 A NEW EDITION OF THE ORIGINAL BESTSELLER Well researched and provides positive solutions Times Educational Supplement In *The Elephant in the Classroom* Jo Boaler outlines what has gone wrong in mathematics education identifying the problems facing children in classrooms today How can children be prepared for the mathematics they will need in the future They need to be taught to be quantitatively literate to think flexibly and creatively and how to problem solve Jo Boaler offers concrete solutions for parents and teachers that will revolutionise children's experience with maths Along with practical teaching activities strategies and questions that can transform a child's mathematical future she shares a range of free and accessible online resources Has attracted an enthusiastic and vocal fan club among mums dads and professionals Daily Telegraph

The Elephant in the Classroom Robert Strumpf, 2020-10-30

The Elephant in the Classroom Jo Boaler, 2009 15 million adults in England alone struggle with maths why is this and how can teachers and parents change that with the next generation This is a practical explanation of what has gone wrong and a positive approach to improving how students of all abilities can learn mathematics

The Elephant in the Classroom Greg Cudmore, 2017-12-28 After 45 years in the classroom the recently retired author has written a no holds barred critique of contemporary education and a primer for aspiring and practising teachers and for those like Mark Twain who have never let schooling interfere with their education This book is written for those who like the author are passionately interested in education It deliberately avoids the jargon that spoils much educational literature It is not an academic treatise It is a practical guide which the author wishes he could have read early in his teaching career The insights have been gleaned from his personal experience and reflection In many respects it is a myth busting exercise exposing the elephants in our

classrooms which prevent them from becoming dynamic learning environments Although the focus in this book is what happens in traditional schools the insights could just as well be applied in any teaching setting

Elephant in the Classroom Andrew Maxey, 2021-12-08 Elephant in the Classroom is an exploration of the vast complexity of teaching as it is described by research and experienced by teachers The reality of a job so vital to the proper functioning of a society should not be as mysterious as teaching continues to be This book takes readers on a guided tour of 13 competencies and practices that are a critical part of teaching

Macklem, 2015-01-05 This brief synthesizes current findings on the many aspects of chronic student boredom its relationship with negative academic emotional and health outcomes and what professionals can do to best address it Citing the complexity of this common student emotion the author spotlights boredom susceptibility during the critical K 12 years The brief analyzes cognitive and emotional attributes of boredom and identifies emotional skills that can be strengthened to counteract it In addition the volume features strategies for educators and school counselors to reduce boredom both internally and in class This stimulating volume Argues that boredom shouldn't be ignored or dismissed as a passing phase Examines various types of boredom as well as gender and cultural differences Explores boredom in the contexts of anxiety and depression and in non school situations Provides theory on causes of boredom in students Details how student self regulation motivation and engagement can be improved Describes specific roles teachers and mental health professionals can play in controlling boredom Boredom in the Classroom is an essential resource for researchers scientist practitioners clinicians and graduate students in the fields of child and school psychology educational psychology social work and related disciplines

The Elephant in the Classroom: A Fable for the Wellness of Educators Nick Esposito, 2019-10-31 Mr Fish feels overwhelmed Ms Tiger feels out of place and Mr Camel is on his last straw The Elephant in the Classroom is based off of real teachers with real stories Playfully written and whimsically illustrated Mr Elephant and his friends serve as a fable for the mental wellness of educators

The Elephant in the Classroom Jane Bowman Smith, 2010 While many works have been written about African American students and composition they tend to examine the students themselves This collection examines the social construct of the classroom itself In examining the classroom as a social construct chapters consider the academy's traditions and expectations for writing and the teaching of writing the importance of understanding student writers and ultimately strategies and approaches that are more likely to help both instructors and students create a classroom community

Gender in the Classroom David Sadker, Ellen S. Silber, 2016-08-23 What's missing from your teacher education program According to research studies one glaring omission is gender Tomorrow's teachers receive little instruction or training on the tremendous impact of gender in the classroom Just how does gender influence teaching the curriculum and the lives of teachers and students in the classroom This unique book has been designed to answer these questions Gender in the Classroom is intended to be used across the teacher education curriculum from subject specific methods courses to foundations from

educational psychology to student teaching It can be adopted for an entire program or several instructors can adopt it jointly or a single instructor can adopt it as one of several or a supplementary text for a course A comprehensive Instructor s Manual provides information and materials for teacher educators who adopt the text Each chapter offers practical information and skills about gender and sex differences curriculum and specific teaching methods Written in a lively style the text features a number of interactive activities to engage and instruct the reader The chapters follow a common format designed to invite student interest and action Each is built around Essential Equity Questions that focus on pertinent gender related questions and issues in a specific subject area the role of women in education intersections of the teaching profession feminism and teachers as activists for social change gender differences in cognitive ability attitudes and behavior how to teach and implement Title IX how to observe classrooms to see gender bias social studies education English language arts methods science education and mathematics and technology education Interactions in each chapter engage students in activities to promote understanding Each Interaction is linked to one or more specific INTASC standards In the last chapter the emphasis is on applying many of the skills learned previously it gives student teachers and their supervisors several tools they can use for analyzing classroom teaching and detecting gender bias This chapter also includes a culminating activity for identifying and correcting curricular bias In fact many of the techniques in this text can be applied to uncover and correct not only gender bias but racial ethnic and cultural bias as well The Instructor s Manual 978 0 8058 5475 6 is now available electronically please contact our customer service department to request a copy

Consensus in the Classroom Linda Sartor, Molly Young Brown, 2004 Born out of a passionate interest in environmental education Linda Sartor began experimenting with consensus decision making in her public school classrooms This book reports on what she did and what she discovered in the process She found that consensus in the classroom works as both an instructional strategy and a classroom management approach and fosters a lively learning community It both requires and generates a paradigm shift in a teacher s relationship with students and students relationships with each other This book will inspire and assist educators to use the consensus process in and out of the classroom

A-Z of Learning Outside the Classroom Russell Grigg,Helen Lewis,2016-04-07 Learning outside the classroom has been high on the political agenda for several years now but recent Ofsted reports indicate that this can be confined to termly or yearly trips as an extra This book provides a convincing and readable promotion of regular outdoor learning It draws on relevant research to reinforce that working in real environments benefits children s all round development cognitively emotionally physically and spiritually This is illustrated through a wide range of engaging activities from how to make a scarecrow to interpreting a painting in a gallery from getting the best from a library visit to how best to attack a medieval castle This practical guide for busy teachers will help them to link what they do in and out of the class It s a must for every staffroom bookshelf

The Elephant in the Classroom: How Our Fear of the Truth Hurts Kids and How Every Student Can Succeed Mack R. Hicks Ph. D.,2014-11-04 A fresh and previously uncharted exploration of our educational system uncovers a clumsy and self defeating elephant in the room Our many failed attempts at reform make it clear that we re not getting to the true underlying sources of our difficulties The book digs deeper than other reforms and reveals a self destructiveness that may very well astonish you This scientific and non political analysis doesn t criticize school boards teachers unions administrators parents students vouchers or charter schools No the problem is in the system itself The research focuses on Recognition of student differences Reassessment of high stakes testing and grading systems Challenging the myth that all students should attend college Matching teaching to each student s unique abilities Opening employment opportunities for all Showing how every child can succeed

Teaching to Difference? The Challenges and Opportunities of Diversity in the Classroom Nicole E. Johnson,Stacey-Ann Wilson,2014-08-11 Teaching to Difference The Challenges and Opportunities of Diversity in the Classroom offers a comparative perspective on the pedagogical and cultural issues in managing differences and diversity in the classroom Using reflections and experiential analysis the volume presents

perspectives on the experiences of teaching and learning through differences of race ethnicity culture sexual orientation and gender language special needs and geography from contexts such as the United States Canada New Zealand and Israel The reflections are presented from the viewpoint of minority teaching professionals and white educators teaching diverse student populations ranging from K 12 to college students and pre service teachers This volume provides a lens into the questions reflections and experiences of teachers and practitioners when they encounter difference in the classroom The essays highlight the trepidation and frustration educators feel when they perceive themselves to be ill prepared for diversity in their classrooms However there are also essays of triumph and success when teachers feel they have reached their students in a meaningful way Additionally through the experiences depicted teachers describe their processes of connecting to students how they determined what worked and did not work in their journey and what they learned from the experience that continues to impact them
