**The Explanation**

**For Everything** Paul Morrison, 2002-02-01 The claim I'm straight is the psychosexual analogue of The check is in the mail if you need to say it your credit or creditability is already in doubt So begins Paul Morrison's dazzling polemic which takes as its point of departure Foucault's famous remark that sex is the explanation for everything Combining psychoanalytic literary and queer theory The Explanation for Everything seeks to account for the explanatory power attributed to homosexuality and its relationship to compulsory heterosexuality In the process Morrison presents a scathing indictment of psychoanalysis and its impact on the study of sexuality In bold but graceful leaps Morrison applies his critique to a diversity of examples subjectivity in Oscar Wilde the cultural construction and reception of AIDS the work of Robert Mapplethorpe the practice of bodybuilding and the contemporary reception of the sexual politics of fascism Analytical witty and astute The Explanation for Everything will challenge and amuse establishing Paul Morrison as one of our most exciting cultural critics *Judicializing Everything?* Mark S. Harding, 2022-02-22 Nearly every common law jurisdiction in the world has adopted a charter or bill of rights Yet adopting a new rights document creates rather than resolves many fundamental constitutional questions Should constitutional rights be relevant in private disputes Does every political question need a constitutional or judicial answer Should courts and legislatures equally participate in addressing the scope of which issues are to be considered constitutional Judicializing Everything illustrates how debates surrounding these persistent judicial questions are best understood as part of an ongoing clash between distinct forms of constitutionalism on and off the bench Mark S Harding canvasses the perennial debates within the field of constitutional studies and provides novel ways of understanding key disagreements between judges and scholars alike Despite important formal differences between rights documents in Canada New Zealand and the United Kingdom Judicializing Everything shows that there are also considerable similarities in the kinds of cases arguments and legal outcomes in the three countries As political life becomes increasingly constitutionalized and judicialized this important book sheds light on the persistence of debates over bills of rights and their interpretation *I'll Explain Everything* Willard John Sergel, 1928 *Enter at Your Own Risk* Leora Lev, 2006 Dennis Cooper has been both praised and censured as the most controversial writer working today for his creation of a searing outlaw textuality that charts psychosexual terrain uncensored by desire police This volume is the first to explore Cooper's significance as a pioneering literary artist who illuminates the hidden or repressed extremities of the fin de millennium American zeitgeist Leora Lev has assembled a roster of internationally acclaimed scholars fiction writers filmmakers and artists who conjure a provocative encounter between Cooper's fiction European transgressive literature and philosophy e.g Sade Rimbaud Bataille Bresson and American psychocultural topographies The Other Rise of the Novel in Eighteenth-Century French Fiction Olivier Delers, 2015-09-01 The rise of the novel paradigm and the underlying homology between the rise of a bourgeois middle class and the coming of age of a new literary genre continues to influence the way we analyze economic discourse in the eighteenth century French novel Characters are often seen as portraying bourgeois values even when historiographical

evidence points to the virtual absence of a self conscious and coherent bourgeoisie in France in the early modern period Likewise the fact that the nobility was a dynamic and diverse group whose members had learned to think in individualistic and meritocratic terms as a result of courtly politics is often ignored The Other Rise of the Novel calls for a radical revision of how realism the language of self interest and commercial exchanges and idealized noble values interact in the early modern novel It focuses on two novels from the seventeenth century Fureti re s Roman bourgeois and Lafayette s Princesse de Cl ves and four novels from the eighteenth century Pr vost s Manon Lescaut Graffigny s Lettres d une P ruvienne Rousseau s La Nouvelle H lo se and Sade s Les infortunes de la vertu It argues that eighteenth century French fiction does not reflect material culture mimetically and that character action is best analyzed by focusing on the social and discursive exchanges staged by the text rather than by trying to create parallels between specific behavior and actual historical changes The novel produces its own reality by transforming characters and their stories into alternative social models different articulations of how individuals should define their economic relations to others The representation of interpersonal relations often highlights personal conceptions of private interest that cannot be easily reconciled with the traditional narrative of a transition towards economic modernity Realism then is not only about verisimilar storytelling and psychological depth it is an epistemological questioning about the type of access to reality that a particular genre can give its readers **So Little**
