First 100 Days of President Obama David J. Phillips,2009-05 The swooning frenzy over Barack Obama as President of the United States is an artificially created absurd wave of self deception His cult following is bereft of reason and devoid of facts He is a celebrity in the mold of an intelligent articulate Paris Hilton In no way does he resemble a statesman Each day in the age of Obama takes us further into lawlessness situational constitutionalism and institutional derangement We are turning into a banana republic where the rule of law is replaced by the tyranny of the majority The political machination of Liberals in the name of an economic recession that they are manipulating is undermining our founding principles President Obama is accumulating massive power in Washington justified by the need to save the nation with a whirlwind of activity He is recklessly over compensating throwing trillions of dollars around for a quick fix which will be a millstone around the necks of future generations He then dishonestly claims that the USA will arise stronger than before When traveling abroad President Obama has an arrogant humility He portrays a proud but flawed United States using a

refrain of past mistakes of his predecessor to generate personal popularity He talks about the nation s darker periods of slavery and repression and its past sanction of torture that he has ended Chicago Politics have come to the White House No president in the past 40 years has done more to polarize America so much so quickly Afghanistan is sliding back to its pre 9 11 days that allowed the country to become a safe haven for al Qaeda leaders plotting terrorist attacks Obama s soft shoe confusion will also be a disaster in neighboring Pakistan where nuclear bomb technology is available **Plumb's**
