

I am ready for the future

3 pages | 514 words

Now I am standing on the stage, enjoying the warm yellow light shining on me. I can see the clapping hands of the audiences. From my professor's eyes, I can feel her proud of me. I will never forget about the moment, about the speech I made. I'm an imaginative person, but I had never imagined being a speaker. My mind is always filled with colorful ideas and thoughts. But once I opened my mouth, they became so pale. When I am standing in the front of the room, watching the eyes of my classmates around me, my hands would start sweating, and my legs would start shaking. The words could not come out of my mouth coherently and logically. Knowing my weakness in speaking, I convinced myself that I would not fit in any of the clubs that require me presenting. So, I chose to be the person behind the scene. Along with my group in costume crew and stage crew, I enjoyed the time designing the costumes and built the stages. I expressed my feelings on canvases. It is so much easier to lift my brush and outline my mind than changing it to concrete words. I had always been defined as that quiet girl who is good at drawing. When I watch the speakers and players performing, I feel so proud of the work we have done. However, from my deep heart, I started to picture the person standing on the stage is not anyone else but me. From that moment, I know that I want to do better. I know that I have to make a change. In 2019, when I was signing up for GSS Summer School, the first class I chose to take was Public Speaking. When I clicked the confirm button, I was more nervous and more confident than at any time. I promised I will try my best to finish this impossible task for myself. Then I started to regret. Watching all of my classmates answering questions in English fluently with no accent, I had to force myself to speak louder and better. I remember walking on the lane outside the school building before class, practicing the same five-minute-long speech, again and again, imaging someone could walk straight up to me and shoot me then I don't have to do the speech. My journey has already started once I entered the classroom on the first day. It took me a lot of effort to step out of my comfort zone. But after I took my first step forward, I can never stop my pace. And I finally did it. I couldn't believe how calm I was in the spotlight. I made a lot of mistakes. I may still have a Chinese accent when I speak. My gestures might not be natural enough. But it doesn't matter to me. I have finally conquered the deepest fear in my heart. Whatever difficulties in the future I am facing, I will take it. Because I am no longer the girl hiding behind the canvas. I am ready for the future.

Readers' Guide to Periodical Literature, 1910 *Readers' Guide to Periodical Literature* Anna Lorraine Guthrie, Bertha Tannehill, Neltje Marie Tannehill Shimer, 1910 **The Future of Islam** Wilfrid Scawen Blunt, 1882 The Future of Islam is a classic Islamic studies text by Wilfred Scawen Blunt To Mohammedans the author owes more than a word of apology A stranger and a sojourner among them he has ventured on an exposition of their domestic griefs and has occasionally touched the ark of their religion with what will seem to them a profane hand but his motive has been throughout a pure one and he trusts that they will pardon him in virtue of the sympathy with them which must be apparent in every line that he has written These essays written for the Fortnightly Review in the summer and autumn of 1881 were intended as first sketches only of a maturer work which the author hoped before giving finally to the public to complete at leisure and develop in a form worthy of critical acceptance and of the great subject he had chosen Events however have marched faster than he at all anticipated and it has become a matter of importance with him that the idea they were designed to illustrate should be given immediate and full publicity The French by their invasion of Tunis have precipitated the Mohammedan movement in North Africa Egypt has roused herself for a great effort of national and religious reform and on all sides Islam is seen to be convulsed by political portents of ever growing intensity He believes that his countrymen will in a very few months have to make their final choice in India whether they will lead or be led by the wave of religious energy which is sweeping eastwards and he conceives it of consequence that at least they should know the main issues of the problem before them To shut their eyes to the great facts of contemporary history because that history has no immediate connection with their daily life is a course unworthy of a great nation and in England where the opinion of the people guides the conduct of affairs can hardly fail to bring disaster The American Journal of Sociology A.W. Miller, 1997 In the middle of the eighteenth century English literature composition and rhetoric were introduced almost simultaneously into colleges throughout the British cultural provinces Professorships of rhetoric and belles lettres were established just as print was reaching a growing reading public and efforts were being made to standardize educated taste and usage The provinces saw English studies as a means to upward social mobility through cultural assimilation In the educational centers of England however the introduction of English represented a literacy crisis

brought on by provincial institutions that had failed to maintain classical texts and learned languages Today as rhetoric and composition have become reestablished in the humanities in American colleges English studies are being broadly transformed by cultural studies community literacies and political controversies Once again English departments that are primarily departments of literature see these basic writing courses as a sign of a literacy crisis that is undermining the classics of literature The Formation of College English reexamines the civic concerns of rhetoric and the politics that have shaped and continue to shape college English Responsibility and the Enhancement of Life Günter Thomas, Heike Springhart, 2017-08-01 In the 21st century and in a globalized world how can an ethic of responsibility orient the powerful human striving for the enhancement of life This question is at the center of the program of theological humanism developed by the American ethicist William Schweiker His ethic of responsibility takes the integrity of all human as well non human life as a central criterion for the enhancement of life The contributions of this collection dedicated to William Schweiker discuss and explore key elements of his work in exemplary studies and from a variety of disciplinary perspectives They examine the contours of this ethic analyze the claims of a moral realism and investigate the backgrounds of his theological humanism Verantwortung und Lebensverbesserung Wie kann eine Ethik der Verantwortung im 21. The Work of Forgetting Stephane Symons, 2018-12-14 For over fifty years the concept of memory has played a crucial role in a large number of academic and societal debates The Work of Forgetting Or How Can We Make the Future Possible draws attention to the limits of the academic field of memory studies It argues that the faculty of memory offers an inadequate response to the challenges of the present The book sets up a dialogue between the philosophies of forgetting that underlie the writings of Friedrich Nietzsche Walter Benjamin and Gilles Deleuze and the philosophies of memory that inform the work of Sigmund Freud Martin Heidegger and Hannah Arendt It builds on the idea that history is inseparable from a type of transience that cannot be counteracted by the preserving work of memory and develops a new understanding of the

The Future of Law and Economics Guido Calabresi,2016-01-01 In a concise compelling argument one of the founders and most influential advocates of the law and economics movement divides the subject into two separate areas which he identifies with Jeremy Bentham and John Stuart Mill The first Benthamite strain economic analysis of law examines the legal system in the light of economic theory and shows how economics might render law more effective The second strain law and economics gives equal status to law and explores how the more realistic less theoretical discipline of law can lead to improvements in economic theory It is the latter approach that Judge Calabresi advocates in a series of eloquent thoughtful essays that will appeal to students and scholars alike
