Book News, 1901 **Secularization without End** Vincent P. Pecora, 2015-03-15 In *Secularization without End* Beckett Mann Coetzee Vincent P Pecora elaborates an alternative history of the twentieth century Western novel that explains the resurgence of Christian theological ideas Standard accounts of secularization in the novel assume the gradual disappearance of religious themes through processes typically described as rationalization philosophy and science replace faith Pecora shows however that in the modern novels he examines secularization ceases to mean emancipation from the prescientific ignorance or enchantment

commonly associated with belief and signifies instead the shameful state of a humanity bereft of grace and undeserving of redemption His book focuses on the unpredictable and paradoxical rediscovery of theological perspectives in otherwise secular novels after 1945 The narratives he analyzes are all seemingly godless in their overt points of view from Samuel Beckett's *Murphy* to Thomas Mann's *Doktor Faustus* to J M Coetzee's *The Childhood of Jesus* But Pecora argues these novels wind up producing varieties of religious doctrine drawn from Augustinian and Calvinist claims about primordial guilt and the impotence of human will In the most artfully imaginative ways possible Beckett Mann and Coetzee resist the apparently inevitable plot that so many others have constructed for the history of the novel by which human existence is reduced to mundane and meaningless routines and nothing more Instead their writing invokes a religious past that turns secular modernity and the novel itself inside out
