**Resources in Education** ,1993-08 **Confident Assessment in Higher Education** Rachel Forsyth, 2022-09-23 Your perfect companion to building confident assessment in teaching and learning in higher education Assessment is a central part of teaching and learning in higher education and an area in which many university teachers lack confidence Designed to work across academic disciplines this is a practical theory informed resource for anyone in the higher education sector It

John M. MacKenzie,John MacDonald MacKenzie,1986 Popular culture is invariably a vehicle for the dominant ideas of its age Never was this more true than in the late nineteenth and early twentieth centuries when it reflected the nationalist and imperialist ideologies current throughout Europe When they were being entertained or educated the British basked in their imperial glory and developed a powerful notion of their own superiority This book examines the various media through which nationalist ideas were conveyed in late Victorian and Edwardian times in the theatre ethnic shows juvenile literature education and the iconography of popular art Several chapters look beyond the first world war when the most popular media cinema and broadcasting continued to convey an essentially late nineteenth century world view while government agencies like the Empire Marketing Board sought to convince the public of the economic value of empire Youth organizations which had propagated imperialist and militarist attitudes before the war struggled to adapt to the new internationalist climate

*U.S. Government Books* ,1987      **Comic Connections** Sandra Eckard,2018-01-03 With the popularity of comic adaptations on television and at the movies these current topics can be a great way to engage students by bringing characters and stories they connect with into the classroom to help them build the skills that they need to be successful Comic Connections Reflecting on Women in Popular Culture is designed to help teachers from middle school through college find exciting new strategies that they can use right away as part of their curricular goals Each chapter has three pieces comic relevance classroom connections and concluding thoughts this format allows a reader to pick and choose where to start Some readers might want to delve into the history of a comic to better understand characters and their usefulness while other readers might want to pick up an activity presentation or project that they can fold into that day s lesson This volume in Comic Connections series focuses on female characters Wonder Woman Peggy Carter and Lois Lane to name a few with each chapter deconstructing a specific character to help students engage in meaningful conversations writing projects and other activities that will complement and enhance their literacy skills      Proceedings of the Florence International Conference for Teachers of Architecture Marco Sala,1995      **The Publishers' Circular and Booksellers' Record** ,1929      Re-imagining University Assessment in a Digital World Margaret Bearman,Phillip Dawson,Rola Ajjawi,Joanna Tai,David Boud,2020-07-13 This book is the first to explore the big question of how assessment can be refreshed and redesigned in an evolving digital landscape There are many exciting possibilities for assessments that contribute dynamically to learning However the interface between assessment and technology is limited Often assessment designers do not take advantage of digital

opportunities Equally digital innovators sometimes draw from models of higher education assessment that are no longer best practice This gap in thinking presents an opportunity to consider how technology might best contribute to mainstream assessment practice Internationally recognised experts provide a deep and unique consideration of assessment's contribution to the technology mediated higher education sector The treatment of assessment is contemporary and spans notions of assessment for learning measurement and the roles of peer and self within assessment Likewise the view of educational technology is broad and includes gaming learning analytics and new media The intersection of these two worlds provides opportunities dilemmas and exemplars This book serves as a reference for best practice and also guides future thinking about new ways of conceptualising designing and implementing assessment

*The Materials of Early Theatre: Sources, Images, and Performance* Meg Twycross, 2017-12-06 Collected Studies CS 1068 The essays selected for this volume are chosen to reflect the important and intersecting ways in which over the last forty years Meg Twycross has shifted paradigms for people reading early English religious drama The focus of Meg Twycross's research has been on performance in its many aspects and this volume chooses four of the most important strands of her work the York plays new ways of understanding acting and performance in late medieval theatre particularly in Britain and across Europe why scenes are staged in the ways they are verbally and by extrapolation visually by close reading of texts against the background of medieval theology and the attention paid to wider contexts of medieval theatre concentrating especially on essays that are not easily available today These thematic strands are reflective of Meg Twycross's major contribution to the field They also represent those areas from her wider work which will have most utility and value for those whether students or senior specialists in areas beyond early drama who are looking for ways into understanding English medieval plays The crucial work that has been done here has opened new perspectives on late medieval theatre and will allow new generations to begin their study and research from further along the road

*Paul Renner* Christopher Burke, 1998-12 German typographer Paul Renner is best known as the designer of the typeface Futura which stands as a landmark of modern graphic design This is the first study of Renner's typographic career detailing his life and work to reveal the breadth of his accomplishment and influence [Publishers' Circular and Booksellers' Record of British and Foreign Literature](#), 1897

[The Perfect Norm](#) Sandra Vavra, Sharon L. Spencer, 2009-02-01 Our goal in writing this book was to validate teachers for strong efforts in their life's work We often observe teachers' frustrations with what they perceive to be a multitude of different hot topics in education that they must attend to now but which they expect to come and go like the last hot topics So we wanted to help readers see similarities between many of these hot topics differentiation multiple intelligences culturally responsive teaching brain friendly strategies authentic assessment and ethical classroom management which we feel are not flashes in the pan And we trust that serious practitioners will not oversimplify the findings of neuroscientists and their application to education Reading studies and books by scientists a number of which are user friendly can help ensure that teachers separate the hype from

credible information We have seen this professionally judicious approach in the work of graduate students Kolinski 2007 in adopting brain friendly strategies We have intentionally packed both theoretical research based and practical information in this book because professional educators want to know why they should use certain approaches models and strategies In turn as professionals we should be able to explain why we teach the way we do not to justify but to educate others about our knowledge based reflective decision making processes and the impact on student learning Thus it is important to read Chapter 1 because it lays a foundation Each succeeding chapter 2 6 has unique and compelling twists and turns chock full of ideas to use or to adapt It is possible to gain lots of ideas processes and strategies from reading and implementing or adapting even one of the unit chapters or a part of it While some of the units are explicitly about literacy others focus on content using reading writing speaking and listening as critical in the learning process Thus literacy skills are reinforced and strengthened Additionally some of our colleagues and public school partners have given us feedback that they wanted to implement some of the units and activities themselves So feel free to use this book for self exploration and professional development     *History Gr12 T/g* ,
