The End The Beginning Introducing Humanity S New Dawn Trilogy:

Anthology of the Biblical Revolution Evolution Series Michael Stansfield, 2020-02-13 As primitive civilization developed society has established cornerstones in our thought and reasoning Things we are told repeatedly as fact from birth and are thus believed instinctively Many of these cornerstones now date back many millennia such as the Bible The BER Series takes a candid look into the Bible to explore how the theological beliefs within Institutional Religion have affected society in diabolical ways These books also challenge the church s theological cornerstones to prove that they deviate from the Bible and truly have an obscured understanding of the Divine Thus the goal is to bring an overdue debate to organized religion The hope is to remove the barriers that deny humanity the evolution of our species No topic is out of bounds A person could listen to ten lifetimes of sermons and never get even a fraction of the candor of these books Love them or hate them you will be unable to put them down and you will never see the World or the Divine the same way again **Dawn to Dusk** Dr Shree

Raman Dubey, 2015-04-17 Life is idea attitude and action Why not make a difference this dawn Let us today sincerely have a wildest hope to catch fish in the desert Trust the land and faith will pour heavily to flood with deeper ponds and longer lakes full of fishes at the end Do it and you shall get it Believe it trust faith and hope are the limbs of the thought you dream of from dawn to dusk Nothing lies above your resolution to translate dusk into dawn The spider of life invariably keeps making the web for the self to be trapped It is truth that the bees do not sit on the dung Life as bees is to search the nectar of nature so that the honey on earth can spread sweetness of mankind The garden of life should not restrict its fragrance within the boundary of self Rise above to embrace the world leaving behind the ego of the self Let us all be grateful to the life living in us from dawn to dusk Dive deeper into the dusk to see the depth of dawn Let not the hopes of billions and billions faint before the life gives way **The Ex-Human** Michael Bérubé, 2024-05-28 Facing threats like climate change and nuclear

warfare science fiction authors have conjured apocalyptic scenarios of human extinction Can such gloomy fates help us make sense of our contemporary crises How important is the survival of our species if we wind up battling for an Earth that has become an uninhabitable hellscape What other possible futures do narratives of the end of humanity allow us to imagine Michael B rub explores the surprising insights of classic and contemporary works of SF that depict civilizational collapse and contemplate the fate of Homo sapiens In a lively conversational style he considers novels by writers including Ursula K Le Guin Margaret Atwood Liu Cixin Philip K Dick and Octavia Butler as well as films that feature hostile artificial intelligence such as 2001 A Space Odyssey Blade Runner and the Terminator and Matrix franchises B rub argues that these works portray a future in which we have become able to see ourselves from the vantage point of something other than the human Though framed by the possibility of human extinction they are driven by a vision of the ex human a desire to imagine that another species is possible For all science fiction readers worried about the fate of humanity The Ex Human is an entertaining yet sobering account of how key novels and films envision the world without us *The Cambridge Introduction*
