Puppets and Cities Jennifer Goodlander, 2018-12-13 Nations in Southeast Asia have gone through a period of rapid change within the last century as they have grappled with independence, modernization and changing political landscapes. Governments and citizens strive to balance progress with the need to articulate identities that resonate with the pre-colonial past and look towards the future. *Puppets and Cities: Articulating Identities in Southeast Asia* addresses how puppetry complements and combines with urban spaces to articulate present and future cultural and national identities. Puppetry in Southeast Asia is one of the oldest and most dynamic genres of performance. Bangkok, Jakarta, Phnom Penh and other dynamic cities are expanding and rapidly changing. Performance brings people together, offers opportunities for economic growth and bridges public and private spheres. Whether it is a traditional shadow performance borrowing from Star Wars or giant puppets parading down the street, this book examines puppets as objects and in performance to make culture come alive. Based on several years of field research, watching performances, working with artists and interviewing key stakeholders in Southeast Asian cultural production, the book offers a series of rich case studies of puppet performance from various locations including theatre in suburban Bangkok, puppets in museums in Jakarta, Indonesia, puppet companies from Laos, PDR, the National Puppet Theatre of Vietnam and the Giant Puppet Project in Siem Reap, Cambodia, new global puppetry networks through social media and how puppeteers came together from around the region to create a performance celebrating ASEAN identity.

Fair Economics Irene Schoene, 2015-09-10 Have you ever questioned our economic model? Wondered how the financial crash was able to happen? Thought about what we can do to stop it happening again? Modern economics bases its view of the world on assumptions Adam Smith made about nature and people nearly three hundred years ago in a time when people travelled by horse and carriage and wrote by the light of candles. We now live in a globally connected, post-industrial world of digital communication and advanced technology, and yet our economic model remains stuck in the past. Taking a thorough look at economics, including the history and how we reached our current way of thinking, Irene Schoene puts forward an alternative economics that is not only relevant to our modern world of technology and industry but which also shows an awareness of environmental considerations. Read this to be enlightened about how economics can be considerate of our environmental situation.
