The Foundling S War:

The Foundling's War Michel Déon, 2025-01-07 In the aftermath of French defeat in July 1940 twenty year old Jean Arnaud and his ally the charming conman Palfy are hiding out at a brothel in Clermont Ferrand having narrowly escaped a firing squad At a military parade Jean falls for a beautiful stranger Claude who will help him forget his adolescent heartbreak but bring far more serious troubles of her own Having safely reached occupied Paris the friends mingle with art smugglers and forgers social climbers showbiz starlets bluffers swindlers and profiteers French and German as Jean learns to make his way in a world of murky allegiances But beyond the social whirl the war cannot stay away forever In this sequel to the acclaimed novel *The Foundling Boy* Michel Déon's hero comes to manhood not through combat but by discovering truths about desire and possession sex and love and the nuances that lie between crudely drawn battle lines *The End of American Childhood*

Paula S. Fass, 2017-11-07 How American childhood and parenting have changed from the nation's founding to the present *The End of American Childhood* takes a sweeping look at the history of American childhood and parenting from the nation's founding to the present day Renowned historian Paula Fass shows how since the beginning of the American republic independence self definition and individual success have informed Americans attitudes toward children But as parents today hover over every detail of their children's lives are the qualities that once made American childhood special still desired or possible Placing the experiences of children and parents against the backdrop of social political and cultural shifts Fass challenges Americans to reconnect with the beliefs that set the American understanding of childhood apart from the rest of the world Fass examines how freer relationships between American children and parents transformed the national culture altered generational relationships among immigrants helped create a new science of child development and promoted a revolution in modern schooling She looks at the childhoods of icons including Margaret Mead and Ulysses S Grant who as an eleven year old was in charge of his father's fields and explored his rural Ohio countryside Fass also features less well known children like ten year old Rose Cohen who worked in the drudgery of nineteenth century factories Bringing readers into the present Fass argues that current American conditions and policies have made adolescence socially irrelevant and altered children's road to maturity while parental oversight threatens children's competence and initiative Showing how American parenting has been firmly linked to historical changes *The End of American Childhood* considers what implications this might hold for the nation's future Victorian Women, Unwed Mothers and the London Foundling Hospital Jessica A.

Sheetz-Nguyen, 2012-05-10 This volume seeks to address the questions of poverty charity and public welfare taking the nineteenth century London Foundling Hospital as its focus It delineates the social rules that constructed the gendered world of the Victorian age and uses respectability as a factor for analysis the women who successfully petitioned the Foundling Hospital for admission of their infants were not East End prostitutes but rather unmarried women often domestic servants determined to maintain social respectability The administrators of the Foundling Hospital reviewed over two hundred

petitions annually deliberated on about one hundred cases and accepted not more than 25 per cent of all cases Using primary material from the Foundling Hospital s extensive archives this study moves methodically from the broad social and geographical context of London and the Foundling Hospital itself to the micro historical case data of individual mothers and infants *The National Humane Review* ,1916 A Caring County? Steven King,Gillian Gear,2013-11-01 This comparative study gathers together new research by local historians into aspects of welfare in Hertfordshire spanning four centuries and focusing on towns and villages across the county including Ashwell Cheshunt Hertford Pirton and Royston amongst many others In so doing it makes a valuable contribution to the current debate about the spatial and chronological variation in the character of welfare regimes within single counties let alone more widely As well as viewing poor relief geographically and chronologically the book also considers the treatment of particular groups such as the aged the mad children and the unemployed and shows how within the constraints of the relevant welfare laws each group was dealt with differently giving a more nuanced picture than has perhaps been the case before The overarching question that the book attempts to answer is how effectively Hertfordshire cared for those in need With chapters on madhouses workhouses certified industrial schools the Foundling Hospital pensions and medical care the book covers a very broad range of topics through which a complex picture emerges While some officials seem to have been driven by a relatively narrow sense of their obligations to the poor and vulnerable others appear to have tailored welfare packages to their precise needs Naturally self interest played a part if the weakest citizens were well managed vagrancy might be lessened the spread of disease contained and control maintained over the cost of looking after the poor and sick It seems that Hertfordshire was relatively nimble and sensitive in discovering and treating its people s needs Evidence is beginning to emerge in other words that Hertfordshire was in essence a caring county *The Lives of the Novel* Thomas G.
