U-Turn Teaching Rich Allen, Jenn Currie, 2012-09-04 Help middle schoolers engage in the classroom before it's too late. The middle school years mark a critical point in a child's educational journey. For many educators, these years are the last chance to put in place strong positive learning patterns. U-Turn Teaching is founded on Rich Allen's Green Light education strategies in which every activity is designed to proactively support learning. This book builds on what researchers have discovered about how the adolescent brain learns best and shows how those discoveries directly relate to effective classroom teaching. Now you can engage all students, even unmotivated ones, and help them make a U-turn by applying these four principles of brain-based learning: Build and maintain trust; Create a collaborative community; Take a TEAMing approach; Prime the positive environment. U-Turn Teaching demonstrates how to realistically accomplish these four principles in your classroom. When educators are able to embed positive, efficient, and effective patterns of learning in the middle years, students are far more likely to succeed in high school and beyond.

Adventures in Fantasy John Gust, 2010-02-02 *Adventures in Fantasy* offers an exciting approach to teaching narrative and descriptive writing that stimulates a student's creativity and imagination. Filled with mini-lessons, reading projects, and hands-on writing activities, the book shows teachers step by step how to introduce students to the magic of creating a complete story in the fantasy adventure genre. Before fleshing out their stories, however, students are asked to construct actual maps of their fantasyland and then to write a travelogue describing the setting in vivid detail. This initial fantasizing encourages students to be wildly inventive in creating the drama, ogres, villains, heroes, and heroines featured in their story and on the way they learn about the mythic journey.

Cultivating Reasonableness in Education Marella Ada V. Mancenido-Bolaños, Cathlyne Joy P. Alvarez-Abarejo, Leander Penaso Marquez, 2023-09-19 This book focuses on the real-world application of the Philosophy for with Children (P4wC) pedagogy to cultivate reasonableness in individuals through communities of philosophical inquiry. It presents a collection not only of theories but more importantly of experiences, discoveries, and innovations on P4wC by scholars, trainers, advocates, and practitioners around the world. Each chapter

provides readers with insights and lessons that have resulted from the continuous application exploration and enrichment of the concepts principles and practices that were developed by Matthew Lipman and Ann Margaret Sharp into what P4wC is today a dialogic pedagogical approach that may just be what is needed at a time when reasonableness and dialogue are essential to maintaining global stability and progress In this light this book also looks into how the P4wC approach can be practiced with adults such as when it is employed in various settings or contexts such as in business consulting textbook writing peace education and extremism prevention among others Furthermore this book also features chapters that discuss how the P4wC pedagogy can be beneficial once integrated into processes such as classroom teaching teacher education bioethics and employee education This book provides valuable insights about how reasonableness that is cultivated through building communities of philosophical inquiry in education can be a powerful tool for nation building and social transformation
