Interrogating the Visual Culture of Trumpism Grant Hamming,Natalie E. Phillips,2024-08-26 Bringing together scholars from art history visual studies and related disciplines this edited volume asks why Trumpism looks the way it does and what that look means for American and global society Grouped into six categories the essays in this volume tackle some of the most perplexing and urgent aspects of the Trumpist visual project Two of the most striking aspects of that project are its use of novel commodity forms including the iconic red baseball caps as well as its embrace of social media Trump s outlandish persona and striking physicality have lent themselves to caricature both from his critics and perhaps more surprisingly his supporters That physicality as well as his movement s hearkening back to a mostly imagined era of mid twentieth century prosperity has also brought gender and the body into sharp focus Perhaps second only to the aforementioned red hat is Trumpism s vigorous use of interventions into public space including traditional campaign signs as well as flags and other ad hoc visual and architectural materials Finally there were the events of January 6 2021 when many of Trumpism s most outr visual and cultural preoccupations exploded from the shadows onto television screens across the country Taken as a whole the essays in this book examine Trumpist visuality from the seemingly trivial to the starkly horrifying as well as offering a measured sense of the various resistances and responses that have characterized

artistic responses to Trump from the beginning of his prominence The book will be of interest to scholars working in art history visual culture American studies and cultural and media studies      **The X Formator's Book Of Life** ANKH UNUM,2024-07-30 A person s perspective can determine their reality while many different perspectives make up the universe we are in An alien had a vantage point of his own as he made his way to Earth Seeing all that he could see he learned that the most precious thing on Earth is the energy we call the emotion love and the products of that energy life As the alien makes his way into the light he finds that life is delicate while love is as strong as a diamond rock Inspired by his settle exposure to theosophy philosophy spirituality biology and algebra the alien goes on an adventure that leads him through many different dimensions as he finds for himself the wealth of the goddess Gaia Many may find the darkness to be uncomfortable while this alien race cherishes the darkness as the backdrop of manifestations While on Earth the x formator discovers and explores light within light which is bonded by a love that hosts the epitome of life      Sideshow: Fine Art Prints, Vol. 2 Andrew Farago,2021-11-16 Sideshow Collectibles sells some of the best nerd swag around Collider com Discover a stunning gallery of pop culture art prints from Sideshow Collectibles incredible stable of creators No creative studio explores the intersection of high art and pop culture like Sideshow Collectibles Now Sideshow presents a jaw dropping gallery of prints in this deluxe art book OVER 100 AMAZING ART PRINTS Featuring pieces inspired by Star Wars Marvel DC and more this collection of art prints will let you experience fan favorite characters in a whole new way GO BEHIND THE SCENES WITH THE WORLD S GREATEST ARTISTS Including lauded artists such as Alex Ross Olivia De Berardinis Adi Granov Paolo Rivera and more this book will show you how top tier illustrators brought their creative visions to life from conceptual sketches to the finished piece BUILD YOUR SIDESHOW COLLECTION A prestige addition to any Sideshow collection Sideshow Fine Art Prints Vol 2 is a must have coffee table book for fans offering an engrossing experience of a unique gallery of pop culture art      **Michelin Green Guide Japan** Michelin,2012-01-01 This eBook version of the Green Guide Japan by Michelin captures the spirit of the country from the Okinawa archipelago s sandy beaches to Honshu s forested slopes This fully revised and expanded Green Guide Japan presents a country famous for its rich heritage plentiful hot springs state of art railway network and complex delicious cuisine Delight in Kyoto s shrines and temples explore Nara s UNESCO World Heritage sites and shop in Tokyo s eclectic boutiques Discover historic pagodas futuristic skyscrapers peaceful villages and a varied flora and fauna Wherever you go Michelin s celebrated star rating system makes sure you see the best Japan has to offer      **New York Magazine** ,1972-09-11 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea      Vegetarian Times ,2001-05 To do what no other magazine does Deliver
