

The Great Debaters: Viewing Guide

Inspired by a true story, *The Great Debaters* chronicles the journey of Professor Melvin Tolson, a brilliant but volatile debate team coach who uses the power of words to shape a group of underdog students from a small African American college in the deep south into a historically elite debate team. A controversial figure, Professor Tolson challenged the social mores of the time and was under constant fire for his unconventional and ferocious teaching methods as well as his radical political views. In their pursuit for excellence, Tolson's debate team receives a groundbreaking invitation to debate Harvard University's championship team.

Teachers of foreign languages and cultural studies in particular feel the need to redesign curricula and lesson plans to better serve the learning community of the twenty-first century. The common starting point resides in the paradox that exists in today's connected world while global access to information makes learners aware of the infinite variety of cultural diversity it does not however make them critical thinkers. For this reason there is opportunity to reshape critical thinking within a more global perspective while enhancing the tools to identify, interpret and compare the different cultural models that learners encounter. The book demonstrates the theories and practical applications by which instructors use contemporary film to provide insightful readings on diverse local communities that form the basis of global culture. This collection of essays will serve as a pedagogical tool and resource offering methods and examples of a communicative approach to analyze and integrate cultural diversities, similarities and problems in the second language curricula, methods that expose students to different cultural models while scaffolding their critical approach to multiple layers of common and specific values. This work will encourage a dialogue and long-lasting conversation on methodologies and teaching strategies, rethought, reapplied and remolded to the new learning environments. Common Core Reading Lessons Stacey O'Reilly, Angie Stooksbury, 2013-12-04 The Common Core is placing a heavier emphasis on nonfiction but that doesn't mean you have to give up your literature lessons. In this book English teachers Stacey O'Reilly and Angie Stooksbury describe how you can combine nonfiction with fiction to meet the standards and give students a deeper understanding of what they are reading. This practical book provides a variety of nonfiction reading strategies as well as ready-to-implement lesson plans and text pairing suggestions. You will get a variety of useful strategies to help students analyze nonfiction. Sample units with step-by-step agendas and lesson plans. Ready-to-use classroom handouts and rubrics for assessment. Suggested text pairings across genres and time periods.
