Mulryne, Takashi Kozuka, 2016-04-01 A remarkable resurgence of interest has taken place over recent years in a biographical approach to the work of early modern poets and dramatists in particular to the plays and poems of Shakespeare Marlowe and Jonson The contributors to this volume approach the topic in a manner that is at once critically and historically alert They acknowledge that the biographical evidence for all three authors is limited thus throwing the emphasis acutely on interpretation In addition to new scholarship the essays are valuable for their awareness of the challenges posed by recent redirections of critical methodology Scepticism and self criticism are marked features of the writing gathered here **Gaelic Incantations, Charms and Blessings of the Hebrides** William MacKenzie (Secretary, Crofters' Commission.), 1895 **Orpheus the Organ-grinder** Frank Eugene Chase, 1881 **Lola's Luck** Carol Miller, 2008-10-17 Gypsies in America are hidden With estimates between fifty thousand and over a million the Gypsy population is as mysterious as their ways and vast amounts of misinformation swirl around them Lola's Luck peers behind the curtain past the paisley walls and twinkling lights to find an expert advisor on love business and marriage Lola's Luck introduces a remarkable woman who drew a young anthropologist into her colorful society changing her life A true story of luck kinship love and an entire world hidden from view Lola's Luck is a stunning personal memoir of life among the Gypsies of America Here is a fresh response to the stereotypes that surround a traditional culture trying to

The Forest Pony, the Gypsy Boy and Other Tales Lady Elizabeth K. DOUGLAS,1872

The Gypsies Charles Godfrey Leland,2020-09-28 It is I believe seldom observed that the world is so far from having quitted the romantic or sentimental for the purely scientific that even in science itself whatever is best set forth owes half its charm to something delicately and distantly reflected from the forbidden land of fancy The greatest reasoners and writers on the driest topics are still genial because no man ever yet had true genius who did not feel the inspiration of poetry or mystery or at least of the unusual We are not rid of the marvelous or curious and if we have not yet a science of curiosities it is apparently because it lies for the present distributed about among the other sciences just as in small museums illuminated manuscripts are to be found in happy family union with stuffed birds or minerals and with watches and snuff boxes once the property of their late majesties the Georges Until such a science is formed the new one of ethnology may appropriately serve for it since it of all presents most attraction to him who is politely called the general reader but who should in truth be called the man who reads the most for mere amusement For Ethnology deals with such delightful material as primeval kumbo cephalic skulls and appears to her votaries arrayed not in silk attire but in strange fragments of leather from ancient Irish graves or in cloth from Lacustrine villages She glitters with the quaint jewelry of the first Italian race whose ghosts if they wail over the find speak in a language man knows no more She charms us with etchings or scratchings of mammoths on mammoth bone and invites us to explore mysterious caves to picnic among megalithic monuments and speculate on pictured Scottish stones In short she engages man to investigate his ancestry a pursuit which presents charms even to the illiterate and asks us to find

out facts concerning works of art which have interested everybody in every age. At interim before the science of curiosities is segregated from that of ethnology I may observe that one of the marvels in the latter is that among all the subdivisions of the human race there are only two which have been apparently from their beginning set apart marked and cosmopolite ever living among others and yet reserved unto themselves. These are the Jew and the gypsy. From time whereof history hath naught to the contrary the Jew was as he himself holds in simple faith the first man. Red Earth Adam was a Jew and the old claim to be a peculiar people has been curiously confirmed by the extraordinary genius and influence of the race and by their boundless wanderings. Go where we may we find the Jew has any other wandered so far. Yes one. For wherever Jew has gone there too we find the gypsy. The Jew may be more ancient but even the authentic origin of the Romany is lost in ancient Aryan record and strictly speaking his is a prehistoric caste. Among the hundred and fifty wandering tribes of India and Persia some of them Turanian some Aryan and others mixed it is of course difficult to identify the exact origin of the European gypsy. One thing we know that from the tenth to the twelfth century and probably much later on India threw out from her northern half a vast multitude of very troublesome indwellers. What with Buddhist Brahman and Mohammedan wars invaders outlawing invaded the number of out castes became alarmingly great. To these the Jats who according to Captain Burton constituted the main stock of our gypsies contributed perhaps half their entire nation. Excommunication among the Indian professors of transcendental benevolence meant social death and inconceivable cruelty. Now there are many historical indications that these outcasts before leaving India became gypsies which was the most natural thing in a country where such classes had already existed in very great numbers from early times. *Highways and Byways in Surrey* Eric Parker, 1908
