**Big Green Purse** Diane Maceachern, 2008-02-28 Read Diane McEachern's posts on the Penguin Blog Protecting our environment is one of the biggest issues facing our planet today But how do we solve a problem that can seem overwhelming even hopeless As Diane MacEachern argues in Big Green Purse the best way to fight the industries that pollute the planet thereby changing the marketplace forever is to mobilize the most powerful consumer force in the world women MacEachern's message is simple but revolutionary If women harness the power of their purse and intentionally shift their spending money to commodities that have the greatest environmental benefit they can create a cleaner greener world Spirited and informative this book targets twenty commodities cars cosmetics coffee food paper products appliances cleansers and more where women's dollars can make a dramatic difference provides easy to follow guidelines and lists so women can choose the greenest option regardless of what they're buying along with recommended companies they should support encourages women to spend wisely by explaining what's worth the premium price some green products cost what's not and when they shouldn't spend money at all and differentiates between products that are actually green and those that are simply marketed as ecofriendly Whether readers want to start with small changes or are ready to devote the majority of their budget to green products MacEachern offers concrete and immediate ways that women can take action and make a difference Empowering and enlightening Big Green Purse will become the green shopping bible for women everywhere who are asking What can I do

**Ethical Principles and Economic Transformation - A Buddhist Approach** Laszlo Zsolnai, 2011-05-17 Buddhism points out that emphasizing individuality and promoting the greatest fulfillment of the desires of the individual conjointly lead to destruction The book promotes the basic value choices of Buddhism namely happiness peace and permanence Happiness research convincingly shows that not material wealth but the richness of personal relationships determines happiness Not things but people make people happy Western economics tries to provide people with happiness by supplying enormous quantities of things and today's dominating business models are based on and cultivate narrow self-centeredness But what people need are caring relationships and generosity Buddhist economics makes these values accessible by direct provision Peace can be achieved in nonviolent ways Wanting less can substantially contribute to this endeavor and make it happen more easily Permanence or ecological sustainability requires a drastic cutback in the present level of consumption and production globally This reduction should not be an inconvenient exercise of self-sacrifice In the noble ethos of reducing suffering it can be a positive development path for humanity

*Healing Capitalism* Jem Bendell, Ian Doyle, 2017-09-08 The global response from business

to social and environmental issues during the past decade has created a corporate responsibility movement But what has been the impact of this movement The financial crisis that began in 2007 has led more and more people to question the fundamentals of our economic system Now some within the corporate responsibility movement are developing a vision and practice of a new form of capitalism one that will require collective action to achieve Bendell and Doyle draw on Lifeworth's annual reviews of corporate responsibility and explain how business leaders stakeholders and related academe now need to experiment with new models that address the fundamental flaws of contemporary capitalism including monetary systems enterprise ownership and regulation This book will be a fantastic resource for business libraries as it records and analyses key events issues and trends in corporate responsibility during the first decade of the 21st century It is a sequel and companion to Bendell's previous work *The Corporate Responsibility Movement* *Law and Religion in Public Life* Nadirsyah Hosen, Richard Mohr, 2011-04-27 With religion at centre stage in conflicts worldwide and in social ethical and geo political debates this book takes a timely look at relations between law and religion To what extent can religion play a role in secular legal systems How do peoples of various faiths live successfully by both secular laws as well as their religious laws Are there limits to freedom of religion These questions are related to legal deliberations and broader discussions around secularism multiculturalism immigration settlement and security The book is unique in bringing together leading scholars and respected religious leaders to examine legal theoretical historical and religious aspects of the most pressing social issues of our time In addressing each other's concerns the authors ensure accessibility to interdisciplinary and non specialist audiences scholars and students in social sciences human rights theology and law as well as a broader audience engaged in social political and religious affairs Five of the book's thirteen chapters address specific contemporary issues in Australia one of the most ethnically diverse countries in the world and a pioneer of multicultural policies Australia is a revealing site for contemporary studies in a world afraid of immigration and terrorism The other chapters deal with political legal and ethical issues of global significance In conclusion the editors propose increasing dialogue with and between religions Law may intervene in or guide such dialogue by defending the free exchange of religious ideas by adjudicating disputes over them or by promoting a civil society that negotiates rather than litigates *Obama Zombies* Jason Mattera, 2010-03-23 In 2008 Barack Obama lobotomized a generation For an entire year otherwise clear thinking members of the most affluent over educated information drenched generation in American history fell prey to the most expensive hi tech laser focused marketing assault in presidential campaign history Twitter messages were machine gunned to cell phones at mach speed Facebook and MySpace groups spread across the Internet like digital fire YouTube videos featuring celebrities ricocheted across the globe and into college students in boxes with devastating regularity All the while the mega money raising engine whirled like a slot machine stuck on jackpot The result an unthinking mass of young voters marched forward to elect the most radical and untested president in U S history Recognized as one of the country's top young conservative activists by Human Events Jason

Mattera created an internet sensation with ambush video interviews that exposed clueless young liberals and cunning Democratic officials. Now he reveals the jaw dropping lengths Barack Obama and his allies in Hollywood, Washington and Academia went to in order to transform a legion of iPod listening MTV watching followers into a winning coalition that threatens to become a long lasting political realignment. Obama Zombies uncovers the true behind the scenes story of the methods and tactics the Obama campaign unleashed on youth culture. Through personal interviews and meticulous original research, Mattera explains why conservatism's future rests upon jolting the young masses from their slumber, yanking out their earphones and sparking a countercultural conservative battle against the rise of the ignorant Left. The lesson from 2008 is crystal clear: When true conservatives run away, Obama zombies come out to play.
