Dystopian Fiction East and West Erika Gottlieb, 2001-07-04 Gottlieb juxtaposes the Western dystopian genre with Eastern and Central European versions introducing a selection of works from Russia Poland Hungary and Czechoslovakia She demonstrates that authors who write about and under totalitarian dictatorship find the worst of all possible worlds not in a hypothetical future but in the historical reality of the writer's present or recent past Against such a background the writer assumes the role of witness protesting against a nightmare world that is but should not be She introduces the works of Victor Serge Vassily Grossman Alexander Zinoviev Tibor Dery Arthur Koestler Vaclav Havel and Istvan Klima as well as a host of others all well known in their own countries presenting them within a framework established through an original and comprehensive exploration of the patterns underlying the more familiar Western works of dystopian fiction **The United States Catalog**, 1913 *The Cumulative Book Index*, 1913 *Manual of Online Search Strategies* C.J. Armstrong, J.A. Large, 2018-12-20 Published in 1992 like the first this second edition is not intended as introductory textbook command driven Boolean searching It is targeted at online searchers who already have some knowledge of command languages and may be proficient searchers on databases in one or two subject areas but when required to venture into new and less familiar territory still need guidance It is also offered to end users who possess the subject expertise but lack of information retrieval know how The Manual is offered as a guide to database selection and a navigational aid through the twists and turns of the retrieval maze at least some of the dead ends and backtracking may thereby be avoided This volume written by experts in their various fields deals with the subject coverage and record structures of specific databases offers comparisons between databases context indexing procedures updating policies etc discusses the choice between online and CD ROM sources and between hosts if online is selected and illustrates strategies with numerous search extracts □□□□□□□□ Meir Zlotowitz, Nosson Scherman, 1980 **The French Heritage of North Carolina** Dudley M. Marchi, 2021-11-12 There is a significant French heritage in North Carolina The first European explorers to the North Carolina region were in fact French 1524 French Huguenots migrated to the state as early as 1690 and many North Carolinians have family names of French origin Towns such as Bath Beaufort New Bern and La Grange are a testimony to French settlers in the seventeenth and eighteenth centuries and the city of Fayetteville is named after the Marquis de Lafayette a French ally during the American Revolution Beyond names North Carolina has many other remnants of the French presence With materials gathered from archives libraries interviews and photographs this book traces the French heritage in North Carolina from its origins to the present an important part of North Carolina's cultural history **Librarian's Guide to Online Searching** Christopher C. Brown, 2021-06-18 Updates the premier textbook for students and librarians needing to know the landscape of current databases and how to search them Librarians need to know of existing databases and they must be able to teach search capabilities and strategies to library users This practical guide introduces librarians to a broad spectrum of fee based and

freely available databases and explains how to teach them The updated 6th edition of this well regarded text covers new databases on the market as well as updates to older databases It also explains underlying information structures and demonstrates how to search most effectively It introduces readers to several recent changes such as the move away from metadata based indexing to full text indexing by vendors covering newspaper content Business databases receive greater emphasis As in the previous editions this book takes a real world approach covering topics from basic and advanced search tools to online subject databases Each chapter includes a thorough discussion a recap concrete examples exercises and points to consider making it an ideal text for courses in database searching as well as a trustworthy professional resource
