Almaden, 2018-03-20 A Case Manager s Study Guide Preparing for Certification Fifth Edition is an essential study guide for case managers preparing to take the Certified Case Manager CCM exam offered by the Commission for Case Manager Certification CCMC Based on the five knowledge domains and eight essential activities from the CCMC it contains hundreds of questions and answers with

comprehensive rationales Completely updated and revised the Fifth Edition reflects the latest CCM exam blueprint

Casebook for Managing Managed Care Jeffrey P. Bjorck, Janet Brown, Michael Goodman, 2008-11-01 In today's environment of managed care practitioners face more daunting challenges than ever treatment authorizations are becoming more difficult to obtain as are referrals to other healthcare practitioners which are increasingly performance based Into this competitive environment comes Casebook for Managing Managed Care A Self Study Guide for Treatment Planning Documentation and Communication Dedicated to helping mental healthcare practitioners clearly articulate and prove the value of what they provide patients within the managed care system this foundational text uniquely fills a gap in the literature by providing a user friendly self contained tutorial for the Patient Impairment Profile PIP documentation method The PIP combines impairment terminology the impairment profile and the various treatment plan components to create a common language for describing behavior based patient dysfunction and communicating the clinical rationale for treatment As a model for treatment plan development the PIP system trains the practitioner or treatment team in the must have skills needed for today's managed care environment Here practitioners will find explicit instructions about how to Communicate treatment needs convincingly Distinguish effectively between goals objectives and interventions Track progress over time Document treatment summaries efficiently Using clear language and a wide array of case vignettes the Casebook demonstrates how using PIPS can streamline the documentation communication and decision making processes The Casebook continues the groundbreaking tradition of its predecessors Managing Managed Care The Mental Health Practitioner's Survival Guide Goodman et al 1992 and Managing Managed Care II A Handbook for Mental Health Professionals Second Edition Goodman et al 1996 It is uniquely valuable both as a stand alone instructional text and as a companion to the second edition which introduced the Patient Impairment Lexicon and the PIP system itself The Casebook's updates to the Impairment Lexicon definitions that first appeared in Managing Managed Care II are based on the authors ongoing psychometric evaluation and research This practical text will find its way onto the bookshelves of mental healthcare practitioners and managed care personnel alike Psychiatrists clinical psychologists clinical social workers marriage and family therapists and psychiatric nurses especially those participating as managed care providers and case managers and utilization reviewers within managed care organizations regardless of background will find a framework for success within these pages The Casebook's broad appeal also extends to both students in healthcare disciplines and the graduate programs that train them and to psychiatric behavioral healthcare organizations and facilities inpatient outpatient and residential where it will be used for treatment planning *Measuring Quality Performance in Health Care* Dia Kamel Hassan, 2007-01-10 Health cost is escalating Today health care systems are responsible for a considerable proportion of public expenses Patient safety became a major concern and evolved as a global problem with the increase in public perception on adverse events As a result improving the quality of care and measuring performance using effective

measurement tools became major public and political issues challenging health care organizations In response to this considerable effort and expenses have been devoted to develop and implement quality initiatives in health care organizations It is essential that the assessment of quality initiatives use evidence based measurements to evaluate their outcomes Joint Commission International JCI a wholly controlled non profit affiliate of Joint Commission on Accreditation of Healthcare Organizations JCAHO was established with a goal to continuously improve the level of healthcare organizations by introducing international standards and indicators applicable to different countries around the globe Anecdotal evidence and numerous testimonials suggest performance improvement yet no empirical studies have been conducted to demonstrate the overall benefits of applying the JCI standards in countries outside the US This book presents a robust methodology to measure quality performance of health care organizations and evaluate the effectiveness of JCI standards in improving the quality of care The book is based on a study that used a holistic performance measurement model to measure the effect of the newly developed JCI standards on the perceived quality performance and the progress toward organizational excellence of a 400 bed hospital in a developing country The study used a longitudinal quantitative design over a period of 15 months Structured questionnaires were used to collect data from 250 staff 250 patients and families 200 patients medical records and 60 self assessment surveys based on the accreditation bodies approach The results showed a significant perceived improvement in the overall organizational performance index 15 months after the implementation of JCI standards The results highlighted many areas of strength in the standards mainly in their impact on organizational excellence quality improvement and patients safety leadership and management performance patients satisfaction and delight organizational learning organizational ethical performance and documentation The results also identified opportunities for improvement in the JCI standards with respect to human resource management and the absence of standards that address issues existing in organizations with corporate structures
