Heroic Identity in the World of Beowulf Scott Gwara,2009-01-31 Readers of Beowulf have noted inconsistencies in

Beowulf's depiction as either heroic or reckless Heroic Identity in the World of Beowulf resolves this tension by emphasizing Beowulf's identity as a foreign fighter seeking glory abroad. Such men resemble wreccan exiles compelled to leave their homelands due to excessive violence. Beowulf may be potentially arrogant therefore but he learns prudence. This native wisdom highlights a king's duty to his warband in expectation of Beowulf's future rule. The dragon fight later raises the same question of incompatible identities hero versus king. In frequent reference to Greek epic and Icelandic saga, this revisionist approach to Beowulf offers new interpretations of flyting rhetoric, the custom of men dying with their lord, and the poem's digressions.

**The Islamic World, Russia and the Vikings, 750-900** Thomas S. Noonan, 2024-10-28 Professor Noonan here sets out to examine what Islamic silver coins, dirhams, reveal about the great trade between the Islamic world, Europe, Russia, and the Baltic during the early Viking Age. Particular attention is devoted to the origins of this international commerce and the role of such peoples as the Vikings and Khazars. As he shows, the study of these coins also throws new light on mint output in the Abbasid caliphate, the historical significance of specific dirham hoards, and how the patterns of trade evolved during the course of the ninth century.

**Alexander the Great and the Mystery of the Elephant Medallions** Frank L. Holt, 2003-11-24 Frank Holt probably knows more than anyone alive about the mysterious Greek kingdoms in Bactria and on the frontiers of India that were one of the odder legacies of Alexander's Eastern conquests. The literary evidence is sparse; the coins remain ambiguous; the topography defeats all but the toughest. Holt's forays into this world are those of a clever and persistent detective: he loves cracking problems, and the tougher they are, the better. This time, very properly beginning by invoking the name of Sherlock Holmes, he has given us what Conan Doyle would probably have called *The Adventure of the Elephant Medallions*. Debate has raged over the scene these portray ever since the first was discovered: A cavalryman with a lance confronts an opponent on an elephant. Who are they? What is the occasion? Guesses have ranged from Alexander to the Greco-Bactrian monarch Eucratides, from Porus at the Jhelum to Darius at Gaugamela. Using his numismatic and historical skills like a Holmesian magnifying glass, Holt takes us through the theories, deftly explodes the fallacies, and comes up with a for me entirely cogent and satisfying solution. He has also somewhere along the way acquired a really marvelous prose style. Not only is the problem in itself a page-turner, Holt also throws in by way of introduction the best short impressionistic account of Alexander's career I have ever read. This is high scholarship at its most exciting.

Peter Green, author of *Alexander of Macedon 356-323 B.C. A Historical Biography*. This book brings to a wider audience one of the few contemporary pieces of evidence for the image and ideology of Alexander the Great. While relatively well known to experts in the field, the elephant medallions of the title are far less well understood and have thus played a smaller part in popular accounts of Alexander than they probably should. Holt's book offers a well-thought-out introduction, first to Alexander and the Alexander story, second to the entrance of the medallions into modern scholarship, and third to the medallions themselves.
